Recent Developments in Automotive Safety Technology Daniel J Holt, 2004-09-23 Automotive engineers have been working to improve vehicle safety ever since the first car rolled down some pathway well over 100 years ago. Today there are many new technologies being developed that will improve the safety of future vehicles. Featuring the 69 best safety related SAE technical papers of 2003, this book provides the most comprehensive information available on current and emerging developments in automotive safety. It gives readers a feel for the direction engineers are taking to reduce deaths and injuries of vehicle occupants as well as pedestrians. All of the papers selected for this book meet the criteria for inclusion in SAE Transactions, the definitive collection of the year's best technical research in automotive engineering technology.

Fusion Technology 1994 K. Herschbach, W. Maurer, J.E. Vetter, 2012-12-02 The objective of the Symposium on Fusion Technology SOFT conference is to set the stage for the exchange of information on the design, construction and operation of fusion experiments and the technology which is being developed for the next step devices and for fusion reactors. These proceedings therefore present an up to date and thorough review of the state of the art in this dynamic field.
