Yoshino,Flore-anne Messy,Peter J Morgan,2016-02-29 Surveys show that financial literacy levels are typically low around the world despite the widening access to financial services and the increasing financial risks borne by households in many countries This suggests that there will be mounting challenges for households and SMEs to invest wisely and effectively as societies age and governments shift away from defined benefit to defined contribution pension schemes Individuals will increasingly have to make complex financial decisions to plan for their retirement and for a range of foreseen and unforeseen expenditures All of these developments suggest that financial education should be part of a lifetime process that starts at an early age and is pursued throughout adulthood The contributions in this book came from a symposium titled Promoting Better Lifetime Planning through Financial Education organized by the Asian Development Bank Institute the Bank of Japan the Japan Financial Services Agency and the Organisation for Economic Co operation and Development held on 22 23 January 2015 in Tokyo Amongst the topics discussed were effective pension management financial education curricula in schools training for teachers of financial education internationally comparable data on financial literacy and the evaluation of the effectiveness of financial education programs There are also case studies on financial inclusion regulation and education in Indonesia Pakistan Philippines Viet Nam Thailand and Japan The Economics of Quality, Grades and Brands (Routledge

Revivals) Peter Bowbrick,2014-08-01 Virtually every decision to produce buy or sell is influenced by quality yet until this book was first published in 1992 there had been very little attempt to produce a comprehensive and practical theory for this

Here Peter Bowbrick brings together different traditions of quality analysis from economics marketing economics and marketing itself to identify the limitations of the different traditions of quality economics and some approaches to its analysis Beginning with a definition of the subject and the concepts involved this comprehensive title will be of particular value to students of Economics Marketing and Business Studies Beyond the Bubble Test Linda Darling-Hammond, Frank Adamson, 2014-05-14 Performance assessment is a hot topic in school systems and educators continue to analyze its costs benefits and feasibility as a replacement for high stakes testing Until now researchers and policymakers have had to dig to find out what we know and what we still have to learn about performance assessment Beyond the Bubble Test How Performance Assessments Support 21st Century Learning synthesizes the latest findings in the field and not a moment too soon Statistics indicate that the United States is in danger of falling behind if it fails to adapt to our changing world The memory and recall strategies of traditional testing are no longer adequate to equip our students with the skills they need to excel in the global economy Instead teachers need to engage students in deeper learning assessing their ability to use higher order skills Skills like synthesizing information understanding evidence and critical problem solving are not achieved when we teach to multiple choice exams Examples in Beyond the Bubble Test paint a useful picture of how schools can begin to supplement traditional tests with something that works better This book provides new perspectives on current performance assessment research plus an incisive look at what's possible at the local and state levels Linda Darling Hammond with a team of leading scholars bring together lessons learned new directions and solid recommendations into a single readily accessible compendium Beyond the Bubble Test situates the current debate on performance assessment within the context of testing in the United States This comprehensive resource also looks beyond our U S borders to Singapore Hong Kong and other places whose reform mindedness can serve as an example to us OECD Health Policy Studies The Heavy Burden of Obesity The Economics of Prevention OECD, 2019-10-10 Almost one in four people in OECD countries is currently obese This epidemic has far reaching consequences for individuals society and the economy Using microsimulation modelling this book analyses the burden of obesity and overweight in 52 countries including OECD European Union and G20 countries showing how overweight reduces life expectancy increases healthcare costs decreases workers productivity and lowers GDP

The New College Classroom Cathy N. Davidson, Christina Katopodis, 2022-08-30 What the latest science of learning tells us about inspiring effective and inclusive teaching at the college level College instruction is stuck in the past If a time traveler from a century ago arrived on today's campuses they would recognize only too well the listlessness of the lecture hall and the awkward silence of the seminar room Yet we know how to do better Cathy N Davidson and Christina Katopodis two of the world's foremost innovators in higher education turn to the latest research and methods to show how teachers at every kind of institution can help students become independent creative and active learners The New College Classroom helps instructors in all disciplines create an environment that is truly conducive to learning Davidson and Katopodis translate cutting edge research in learning science and pedagogy into ready to use strategies to incorporate into any course These empirically driven classroom tested techniques of active learning from the participatory syllabus and ungrading to grab and go activities for every day of the term have achieved impressive results at community colleges and research universities on campus online and in hybrid settings Extensive evidence shows that active learning tools are more effective than conventional methods of instruction Davidson and Katopodis explain how and why their approach works and provide detailed case studies of educators successfully applying active learning techniques in their courses every day ensuring that their students are better prepared for the world after college

Higher Expectations Derek Bok, 2022-05-17 How our colleges and universities can respond to the changing hopes and needs of society In recent decades cognitive psychologists have cast new light on human development and given colleges new possibilities for helping students acquire skills and qualities that will enhance their lives and increase their contributions to society In this landmark book Derek Bok explores how colleges can reap the benefits of these discoveries and create a more robust undergraduate curriculum for the twenty first century Prior to this century most psychologists thought that creativity empathy resilience conscientiousness and most personality traits were largely fixed by early childhood What researchers have now discovered is that virtually all of these qualities continue to change through early adulthood and often well beyond Such findings suggest that educators may be able to do much more than was previously thought possible to teach students to develop these important characteristics and thereby enable them to flourish in later life How prepared are educators to cultivate these qualities of mind and behavior What do they need to learn to capitalize on the possibilities Will college faculties embrace these opportunities and make the necessary changes in their curricula and teaching methods What can be done to hasten the process of innovation and application In providing answers to these questions Bok identifies the hurdles to institutional change proposes sensible reforms and demonstrates how our colleges can help students lead more successful productive and meaningful lives
