

Water is a scarce resource in South Africa. The graph below shows how the volume of water in a toilet cistern has been reduced over the years. The picture next to the graph shows a toilet pan with a toilet cistern.

NOTE: 1 gallon = 3,785 litres

Use the information above to answer the questions that follow.

- 3.2.1 Calculate (in litres) the volume of water used during February 2022 by a family of five, if each person flushed the toilet an average FOUR times a day during the month. (3)
- 3.2.2 State ONE way in which a person can save water in this context. (2)

Life Orientation Gr12 L/b , **Resources in Education** ,1989 **Educational Authorities and the Schools** Helene Årlestig,Olof Johansson,2020-05-28 This book describes and analyses the organisation functions and development of national educational authorities and agencies and the influence they have on local schools in 20 countries around the world It examines the governing chain in the respective countries from both a theoretical and descriptive perspective It does so against the background of the stability and rigour of the governing chains having been challenged with some researchers considering the chain to be broken However the view that comes to the fore in this book is that the chain is still present and contains both vertical implementation structures and intervening spaces for policy interpretation How schools become successful is important for the individual students as well as the local community and the national state A vast quantity of research has looked at what happens in schools and classrooms At the same time national governance and politics as well as local prerequisites are known to exert influence on schools and their results to a high degree Societal priorities problems and traditions provide variety in how governance is executed This book provides an international overview of the similarities and differences between educational agencies and how their work influences schools *Commonwealth Universities Yearbook* ,1980 A directory to the universities of the Commonwealth and the handbook of their association **Norms and Nobility** David V. Hicks,2024-08-06 A reissue of a classic text Norms and Nobility is a provocative reappraisal of classical education that offers a workable program for contemporary school reform David Hicks contends that the classical tradition promotes a spirit of inquiry that is concerned with the development of style and conscience which makes it an effective and meaningful form of education Dismissing notions that classical education is elitist and irrelevant Hicks argues that the classical tradition can meet the needs of our increasingly technological society as well as serve as a feasible model for mass education

Tests in Print Oscar Krisen Buros,1961 **Learning and Doing Policy Analysis in Education: Examining Diverse Approaches to Increasing Educational Access** Maria Teresa Tatto,Justin Bruner,Fida Hussain Chang,Corvell George Cramfield,Tara Miyoko Kintz,Nai-Cheng Kuo,Sandra Kurtti Pylvainen,Andleeb Sharif,2012-09-17 This book originated in a policy analysis class at Michigan State University taught during 2010 Using Professor Tatto s unique approach to teaching policy analysis the professor and students agreed to construct a class that represented a reflective and grounded experience in the policy analysis of a current and relevant issue with global ramifications we began exploring policies that were developed at the global level and that were implemented locally We investigated the surge of globally developed standards and regulations in an effort to improve education Our goal was to learn cross nationally about policies that seek to reform curriculum and instruction under efficiency and global competitiveness arguments such as Education for All EFA and its USA cousin No Child Left Behind NCLB We knew our work would be bounded by the time available in a one semester class and by resource constraints We did exploratory inquiry supported by literature reviews reports on rigorous research studies and in

one case an exploratory case study The policies we chose to explore such as EFA and NCLB offered us the opportunity to examine current reform tendencies that are intended to provide access to quality education for all children the preparation of teachers to support diverse populations the organization of schools to accommodate these children in response to vague policy mandates and power issues affecting the different constituencies and stakeholders The effects of these and other policies were difficult to track because research is scant and decisions are frequently made based on ideology or political persuasion Our purpose was to explore the critical issues that originated such policies and to search for documented evidence regarding policy implementation and effectiveness We investigated the factors that seemed to interfere with successful implementation from conceptual theoretical and methodological perspectives In this class we learned that there are not ready set frameworks for policy analysis but rather that these have to be constructed according to the issues that emerge as policies are conceptualized and implemented to fit local contexts and needs The book pays particular attention to the contexts of policy including the evolving conceptualization of global and local systems of governance knowledge regimes and policy spaces The book is designed for faculty and doctoral students in education who are interested in understanding diverse frameworks for policy analysis and for those in the general public who are interested in the policies we analyze here
