activity Financial markets too are seeing growing integration Asia now accounts for 1/3 of world stock markets more than double that of just 15 years ago Given current trajectories most economists predict that China and India alone will account for half of global output by 2050 almost a complete return to their positions prior to the Industrial Revolution How is higher education shaping and being shaped by these massive tectonic shifts As education rises as a geopolitical priority it has converged with discussions on economic policy and a global labor market As part of the Routledge Studies in Emerging Societies series this edited collection focuses on the globalization of higher education particularly the increasing symbiosis between advanced and developing countries Bringing together senior scholars journalists and practitioners from around the world this collection explores the relatively new and changing higher education landscape

Education, Skills, and Technical Change Charles R. Hulten, Valerie A. Ramey, 2018-12-26 Over the past few decades US business and industry have been transformed by the advances and redundancies produced by the knowledge economy The workplace has changed and much of the work differs from that performed by previous generations Can human capital accumulation in the United States keep pace with the evolving demands placed on it and how can the workforce of tomorrow acquire the skills and competencies that are most in demand Education Skills and Technical Change explores various facets of these questions and provides an overview of educational attainment in the United States and the channels through which labor force skills and education affect GDP growth Contributors to this volume focus on a range of educational and training institutions and bring new data to bear on how we understand the role of college and vocational education and the size and nature of the skills gap This work links a range of research areas such as growth accounting skill development higher education and immigration and also examines how well students are being prepared for the current and future world of work

The Armed Forces Covenant in action? Great Britain: Parliament: House of Commons: Defence Committee, 2013-07-18 A series of Ofsted inspections on Army Apprenticeships conducted in 2013 rated the overall effectiveness as good This was an improvement over the last inspection in 2009 rated as satisfactory now called requires improvement Some 28 per cent of Army recruits

were less than 18 years of age Further information is needed on why the Army is so dependent on recruiting personnel under the age of 18 years compared to the other two Services and whether steps are being taken to reduce this dependency Of those recruited in 2012 3 5 per cent of the Army were rated at entry level 2 for literacy that of a 7 to 8 year old and 39 per cent had a literacy level of an eleven year old If as the MoD states it has to recruit personnel at whatever level of attainment is available then it should boost remedial action when recruitment entry standards are particularly low In light of changes brought about by Future Force 2020 it may be that recruiting personnel with higher levels of attainment would better meet the future needs of the Armed Forces Whilst the Committee recognises that some recruits may not be eager to take further academic exams the MoD should encourage more recruits to undertake English and Maths GCSEs which would stand them in good stead for future employment The MoD has carried out some useful pilot projects with paramedic training and should identify more potential projects to ensure that vital skills paid for by the MoD are not lost to the country

Randomized Control Trials in the Field of Development Florent Bédécarrats, Isabelle Guérin, François Roubaud, 2020-09-17 In October 2019 Abhijit Banerjee Esther Duflo and Michael Kremer jointly won the 51st Sveriges Riksbank Prize in Economic Sciences in Memory of Alfred Nobel for their experimental approach to alleviating global poverty But what is the exact scope of their experimental method known as randomized control trials RCTs Which sorts of questions are RCTs able to address and which do they fail to answer The first of its kind Randomized Control Trials in the Field of Development A Critical Perspective provides answers to these questions explaining how RCTs work what they can achieve why they sometimes fail how they can be improved and why other methods are both useful and necessary Bringing together leading specialists in the field from a range of backgrounds and disciplines economics econometrics mathematics statistics political economy socioeconomics anthropology philosophy global health epidemiology and medicine it presents a full and coherent picture of the main strengths and weaknesses of RCTs in the field of development Looking beyond the epistemological political and ethical differences underlying many of the disagreements surrounding RCTs it explores the implementation of RCTs on the ground outside of their ideal theoretical conditions and reveals some unsuspected uses and effects their disruptive potential but also their political uses The contributions uncover the implicit worldview that many RCTs draw on and disseminate and probe the gap between the method's narrow scope and its success while also proposing improvements and alternatives Without disputing the contribution of RCTs to scientific knowledge Randomized Control Trials in the Field of Development warns against the potential dangers of their excessive use arguing that the best use for RCTs is not necessarily that which immediately springs to mind Written in plain language this book offers experts and laypeople alike a unique opportunity to come to an informed and reasoned judgement on RCTs and what they can bring to development

Learning, Marginalization, and Improving the Quality of Education in Low-income Countries Daniel A. Wagner, Nathan M. Castillo, Suzanne Grant Lewis, 2022-02-21 Improving learning evidence and outcomes for those most in need in developing

countries is at the heart of the United Nations Sustainable Development Goal on Education SDG4 This timely volume brings together contributions on current empirical research and analysis of emerging trends that focus on improving the quality of education through better policy and practice particularly for those who need improved learning at the bottom of the pyramid LBOP This volume brings together academic research experts government officials and field based practitioners National and global experts present multiple broad thematic papers ranging from the effects of migration and improving teaching to the potential of educational technologies and better metrics for understanding and financing education In addition local experts practitioners and policymakers describe their own work on LBOP issues being undertaken in Kenya India Mexico and Ivory Coast The contributors argue persuasively that learning equity is a moral imperative but also one that will have educational economic and social impacts They further outline how achieving SDG4 will take renewed and persistent effort by stakeholders to use better measurement tools to promote learning achievement among poor and marginalized children This volume builds on the second international conference on Learning at the Bottom of the Pyramid LBOP2 It will be an indispensable resource for policymakers researchers and government thinktanks and local experts as well as any readers interested in the implementation of learning equity across the globe The first volume Learning at the Bottom of the Pyramid LBOP1 may be obtained at <http://www.iiep.unesco.org/en/learning-bottom-pyramid> 4608

Marijuana Federalism Jonathan H. Adler, 2020-03-17 On marijuana there is no mutual federal state policy will this cause federalism to go up in smoke More than one half the 50 states have legalized the use of marijuana at least for medical purposes and about a dozen of those states have gone further legalizing it for recreational use Either step would have been almost inconceivable just a couple decades ago But marijuana remains an illegal controlled substance under a 1970 federal law so those who sell or grow it could still face federal prosecution How can state and federal laws be in such conflict And could federal law put the new state laws in jeopardy at some point This book an edited volume with contributions by highly regarded legal scholars and policy analysts is the first detailed examination of these and other questions surrounding a highly unusual conflict between state and federal policies and laws Marijuana Federalism surveys the constitutional issues that come into play with this conflict as well as the policy questions related to law enforcement at the federal versus state levels It also describes specific areas such as banking regulations in which federal law has particularly far reaching effects Readers will gain a greater understanding of federalism in general including how the division of authority between the federal and state governments operates in the context of policy and legal disputes between the two levels This book also will help inform debates as other states consider whether to jump on the bandwagon of marijuana legalization

Adapt and Be Adept Terry L. Anderson, 2021-04-01 How can markets help us adapt to the challenges of climate change Editor Terry L Anderson brings together this collection of essays featuring the

work of nine leading policy analysts who argue that market forces are just as important as government regulation in shaping climate policy and should be at the heart of our response to helping societies adapt to climate change Anderson notes in his introduction that most current climate policies such as the Paris Agreement require hard to enforce collective action and focus on reducing or mitigating greenhouse gases rather than adapting to their negative effects Adaptive actions can typically deliver much more faster and more cheaply than any realistic climate policy The authors tackle a range of issues the hidden costs of renewable energy sources the political obstacles surrounding climate change policy insurance and financial instruments for pricing risk of exposure to the effects of climate change and more Reliance on emerging renewable energies and a carbon tax are not enough to prevent the effects of global warming they argue We must encourage more private action and market incentives to adapt to a rapidly changing climate
