Crumbling streets and bridges. Poorly performing schools and inadequate social services. These are common complaints in cities which too often struggle just to keep the lights on, much less make the long term investments necessary for future generations. It doesn't have to be this way. This book by two internationally recognized experts in public finance describes a new way of restoring economic vitality and financial stability to cities using steps that already have been proven remarkably successful. The key is unlocking social, human and economic wealth that cities already own but is out of sight or hidden. A focus on existing public wealth helps to shift attention and resources from short term spending to longer term investments that can vastly raise the quality of life for many generations of urban residents. A crucial first step is to understand a city's balance sheet. Too few cities comprehend how valuable a working tool this can be. With this in hand, taxpayers, politicians and investors can better recognize the long term consequences of political decisions and make choices that mobilize real returns rather than rely on more taxes, debt or austerity. Another hidden asset is real estate. Even poor cities own large swathes of poorly utilized land or they control underperforming utilities and other commercial assets. Most cities could more than double their investments with smarter

use of these commercial assets Managing the city's assets smartly through the authors proposed Urban Wealth Funds at arm's length from short term political influence will enable cities to ramp up much needed infrastructure investments *Mission IAS - Prelim & Main Exam, Trends, How to prepare, Toppers' Interviews, Strategies, Tips & Detailed Syllabus 3rd Edition* Disha Experts,2020-02-04

Practising Cultural Geographies Ravi S. Singh,Bharat

Dahiya,Arun K. Singh,Padma C. Poudel,2022-05-20 This festschrift honours Prof Rana P B Singh who has dedicated his life to teaching and conducting research on cultural geography with a dweller Indian perspective The book focuses on the cultural

geographies of India and to an extent that of South Asia It is a rich collection of 23 essays on the themes apprised by him covering landscapes religion heritage pilgrimage and tourism and human settlements Reflections on 21st Century Human Habitats in India Mahabir S. Jaglan,Rajeshwari,2021-07-31 This book highlights various dimensions of human habitats in 21st Century India The human habitats in the country are marked by perceptible inequality in social and economic spheres This is occurring in tandem with rapid socio economic transformation across both rural and urban landscapes There is a plurality of transformative characteristics in terms of social and economic classes gender and space Inequality in access to natural resources such as land and water is still a big factor in socio economic differentiation in rural habitats This constructs a pedestal of unequal opportunities and access to basic human necessities such as healthcare education potable water and sanitation Human habitats experiencing socio spatial segregation and exclusion based on caste community and gender are detrimental in formation of a civil society and its sustainability in long terms The ideal situation for this would be formation of an inclusive society that celebrates age old socio cultural diversities reduces inequalities and reveres composite culture
