A Time to Talk Jana Gray Ramsay, 2024-07-19 Imagine being granted the extraordinary gift of one last conversation with a loved one knowing it would be your final chance to connect Would you use this precious time to pour out your heart share stories of love and gratitude and bid a proper farewell For most such a divine opportunity would be treasured But for Jolie a middle aged woman juggling the demands of her children job grieving father and estranged sister the conversation might take an unexpected turn Why for instance did her mother choose to ignore the cancer ravaging her body instead channeling

her energy into hosting dance challenges from her hospital bed and teaching her grandchildren the joys of skinny dipping Since her mother's passing Jolie has been consumed by grief and regret finding even the simplest tasks overwhelming Despite knowing that hiding under the covers and napping won't solve anything she feels too drained to seek alternatives As she contemplates the tempting escape of running away a choice that hardly seems fitting for a woman nearing fifty Jolie receives an extraordinary gift one final conversation with her mother With so much left unsaid where does one begin when faced with this singular chance It isn't until Jolie faces a heart wrenching accident involving her own daughter that she finds her answer You begin by acknowledging the importance of family and the power of forgiveness and letting go Woven with wisdom humor and a touch of magic *A Time to Talk* is an uplifting story that explores the unbreakable bonds of family the profound impact of a mother's love and the ability to find light even in the darkest of times *Time Trapped* Richard Ungar, 2013-09-26 The high octane sequel to *Time Snatchers* Caleb thought he'd escaped Uncle's clutches and could have a normal life in 1968 but no such luck After being forcibly returned to *Timeless Treasures* and his old job of stealing valuable objects from the past he learns that things have gotten even more sinister Training the new kidnapped recruits doesn't seem very important to Frank Uncle's evil lackey even though a few of these kids have amazing theiving skills and genius for new technology But then Caleb figures out it's because Frank doesn't plan on keeping them around very long or keeping them alive Stakes are high for all of the time snatchers If only Caleb can convince the new ones to stop having fun with the technology and use it to save their own lives **It's Time** Dolores L. Christie, 2019-11-15 It's Time presents a series of short stories highlighting an important but neglected aspect of life Serious illness and aging are dependable harbingers of life's end For each of us there comes a point when we must admit it's time We hear the doctor say this to a dying patient and family members to parents too long in the family home to sobered younger people when a spouse or child becomes seriously ill This kairos this moment of profound significance comes to us all Good stories appeal to everyone Students particularly medical students or those in pastoral ministry or other health care disciplines will find this book a unique rich resource Senior learners will find the essays helpful to work through their own history of decision making grief loss The essays provoke discussion and often closure for painful issues When It's Time each of us must put away the dreams of youth and consider with seriousness death illness and grief This book can help us do just that It does it well *In Your Own Time* Elizabeth Lee (M.D.), 2002 Anyone suffering from a terminal illness faces huge challenges not only emotionally and physically but also in the range of practical decisions they need to make *In your own time* guides the patient through the choices that exist in the current system of medical care helping them decide on the kind of care they want and where they receive it in the hospice or the home It includes chapters on coming to terms with their situation the help available to them at home how to choose between a hospice and home and advice on coping with the inevitable feelings and emotions of both patient and carer Written by a GP with extensive experience in this area the book is unique in presenting both a compassionate and practical

guide for anyone affected by serious illness one that will empower them with the information they need to maintain the highest possible quality of life in their final days

The Images of Time Robin Le Poidevin, 2007-09-27 The Images of Time presents a philosophical investigation of the nature of time and the mind's ways of representing it Robin Le Poidevin examines how we perceive time and change the means by which memory links us with the past the attempt to represent change and movement in art and the nature of fictional time These apparently disparate questions all concern the ways in which we represent aspects of time in thought experience art and fiction They also raise fundamental problems for our philosophical understanding both of mental representation and of the nature of time itself Le Poidevin brings together issues in philosophy psychology aesthetics and literary theory in examining the mechanisms underlying our representation of time in various media and brings these to bear on metaphysical debates over the real nature of time These debates concern which aspects of time are genuinely part of time's intrinsic nature and which in some sense are mind dependent Arguably the most important debate concerns time's passage does time pass in reality or is the division of events into past present and future simply a reflection of our temporal perspective a result of the interaction between a static world and minds capable of representing it Le Poidevin argues that contrary to what perception and memory lead us to suppose time does not really pass and this surprising conclusion can be reconciled with the characteristic features of temporal experience
