Official Report of the Debates of the House of Commons Canada. Parliament. House of Commons,2009-10 *Intergenerational Democracy, Environmental Justice and the Case of Nuclear Waste* Lee Towers,Matthew Cotton,2024-10-07 This book explores the interplay between intergenerational justice and intragenerational justice using nuclear waste management as a consistent case to explore these themes Lee Towers and Matthew Cotton examine the issue of intergenerational justice from a social scientific perspective drawing on central case studies of nuclear waste management in Canada Finland and the United Kingdom They connect indigenous philosophies and notions of justice with the concept of intergenerational democracy advocating for better inclusion of youth and elders in decision making that affects their well being As such the book's primary objectives are fourfold To assess whether trade offs between intergenerational and intragenerational justice are necessary and if so what these trade offs are and how they might be resolved To critically assess dominant western liberal philosophical approaches that shape contemporary intergenerational justice thinking in policy and practice and consider alternatives drawn from anthropology and indigenous philosophies To assess how far our current capitalist system can achieve substantive forms of justice To critically examine three nuclear waste management case studies and assess how far these achieve environmental and energy justice and how they exemplify tensions between inter and intragenerational justice This short accessible volume will be of great interest to students and scholars of energy environmental justice and ethics *Introduction to Social Work* Lisa E. Cox,Carolyn J. Tice,Dennis D. Long,2021-09-03 The award winning Introduction to Social Work An Advocacy Based Profession takes students on an exploration of what social work is what it was historically and how to be an effective advocate as a social

worker moving forward Built on a unique advocacy practice and policy model comprised of four components economic and social justice a supportive environment human needs and rights and political access the book provides a crucial lens for viewing today s social issues Best selling authors Lisa E Cox Carolyn J Tice and Dennis D Long emphasize advocacy throughout all sectors of social work with a focus on environmental international and military social work The Third Edition closely aligns with the latest Educational Policy and Accreditation Standards EPAS from the Council on Social Work Education CSWE references the 2018 Code of Ethics from the National Association of Social Workers NASW and includes profound discussions of societal impacts on areas of public health policy juvenile justice race inequality social movements and self care This title is accompanied by a complete teaching and learning package Interdisciplinary and Transdisciplinary Failures Dena Fam,Michael O'Rourke,2020-11-01 Unlike other volumes in the current literature this book provides insight for interdisciplinary and transdisciplinary researchers and practitioners on what doesn t work Documenting detailed case studies of project failure matters not only as an illustration of experienced challenges but also as projects do not always follow step by step protocols of preconceived and theorised processes Bookended by a framing introduction by the editors and a conclusion written by Julie Thompson Klein each chapter ends with a reflexive section that synthesizes lessons learned and key take away points for the reader Drawing on a wide range of international case studies and with a strong environmental thread throughout the book reveals a range of failure scenarios for interdisciplinary and transdisciplinary projects including Projects that did not get off the ground Projects that did not have the correct personnel for specified objectives Projects that did not reach their original objectives but met other objectives Projects that failed to anticipate important differences among collaborators Illustrating causal links in real life projects this volume will be of significant relevance to scholars and practitioners looking to overcome the challenges of conducting interdisciplinary and transdisciplinary research Staying Alive, Third Edition: Critical Perspectives on Health, Illness, and Health Care Dennis Raphael,Toba Bryant,Marcia Rioux,2019-12-13 This new edition of Staying Alive provides readers with a fresh perspective on health health care and illness in Canada and abroad Grounded in a human rights approach to health this edited collection includes chapters on the social construction of illness and disability social determinants of health and current critical issues in the field The third edition has been thoroughly updated and includes recent national and international developments in health care with current world statistics and an emphasis on austerity related changes and their effects on health and health care systems It includes chapters on pharmaceutical policy social class women s health and the impact of economic forces such as globalization and privatization in health care **Sustainable Utilization of Natural Resources** Prasenjit Mondal,Ajay K. Dalai,2017-03-16 Increased research is going on to explore the new cleaner options for the utilization of natural resources This book aims to provide the scientific knowhow and orientation in the area of the emerging technologies for utilization of natural resources for sustainable development to the readers The book includes production of energy and

lifesaving drugs using natural resources as well as reduction of wastage of resources like water and energy for sustainable development in both technological as well as modeling aspects Dialogues on Climate Justice Stephen M. Gardiner, Arthur Obst, 2022-09-26 Written both for general readers and college students Dialogues on Climate Justice provides an engaging philosophical introduction to climate justice and should be of interest to anyone wanting to think seriously about the climate crisis The story follows the life and conversations of Hope a fictional protagonist whose life is shaped by a terrifyingly real problem climate change From the election of Donald Trump in 2016 until the 2060s the book documents Hope s discussions with a diverse cast of characters As she ages her conversations move from establishing the nature of the problem to engaging with climate skepticism to exploring her own climate responsibilities through managing contentious international negotiations to considering big technological fixes and finally as an older woman to reflecting with her granddaughter on what one generation owes another Following a philosophical tradition established by Plato more than two thousand years ago these dialogues are not only philosophically substantive and carefully argued but also distinctly human The differing perspectives on display mirror those involved in real world climate dialogues going on today Key Features Written in an engaging dialogue form which includes characterization clear exchanges of ideas and a compelling story arc Clearly organized to allow readers both in depth consideration and rapid overviews of various topics Memorable examples that enable and encourage discussion inside and outside the classroom An Introduction to the book aimed at instructors which includes helpful instructions for teaching the book and engaging student assignments The Physiological and Molecular Response of Aquatic Animals to Environmental Stresses Lingling Wang, Vengatesen Thiyagarajan (Rajan), Guangxu Liu, Wei Xu, 2022-10-06 **Ecological Living** John Gusdorf, 2019-03-21 This book emphasizes how we already have the technologies available including renewable energy and the ability to recycle most materials to make ecological living possible and that perceived barriers to energy transitions can be overcome Human life relies upon two systems the biosphere and the system that produces our goods and services Today these two systems are in conflict and we all face the question of whether we can stop damaging our environment while still supplying the essential goods and services we have come to depend on Ecological Living presents an optimistic vision of our future by showing how decoupling the productive system from resource extraction is possible and how this is a key means of achieving an equitable world within environmental limits For long term sustainability the book argues that we must become more efficient in the use of our resources so that resource extraction and the accompanying environmental costs can be reduced Demonstrating the essential steps towards a just and sustainable world Ecological Living will be of great interest to all students academics and policymakers working in the field of environment and sustainability
