Life Orientation Exemplar:

Sexuality, Society & Pedagogy Dennis A. Francis, 2013-01-01 Sexuality Society and Pedagogy problematises some of the prevailing assumptions that frame this area of study. In doing so it aims to make visible the challenges of teaching sexuality education in South African schools while demonstrating its potential for reshaping our conceptions of the social and cultural representations thereof. Although the book is largely situated in experiences and perspectives within the South African context it is hoped that the questions raised, reflections, analyses and arguments will contribute to thinking about sexuality education in diverse contexts in particular more developing contexts. *Facing the Unknown Future* Ina ter Avest, Cok Bakker, Julia Ipgrave, Silke Leonhard, Peter Schreiner, 2020 During the 20 year history of the European Network for Religious Education through Contextual Approaches ENRECA several books have been published on the subject of Religious Education from sociological, psychological or anthropological perspectives and always in the contextual settings of national educational frameworks and other specific culturally bound phenomena. Also very often an international comparative perspective was included. The shared goal was not so much to reflect on religion as such and on its changing doctrines, institutions and prescriptions but to try and understand religion in the specific European contexts of secularization and the plurality of life orientations and to understand how religion becomes manifest in education in a variety of concrete policies and classroom practices reflecting various social issues. This volume marking the 20th anniversary of ENRECA has a specific focus on the contextual dimension of time. *Meaning in Life* Joel Vos, 2018-06-15 This inspiring insightful new text provides a practical guide to helping clients live a meaningful and satisfying life despite the challenges they may be facing. Divided into three parts it starts by drawing on empirical research to demonstrate the effectiveness of meaning oriented practice and reviews a large body of literature on meaning in a wide range of psychological and philosophical approaches translating this into specific recommendations for practitioners. It continues by exploring the basic skill set required for working effectively in this area from how to assess clients' needs and address issues of meaning to specific existential, phenomenological and mindfulness skills. Finally it provides a step guide to applying the skills to clinical practice with the support of examples and case studies from a range of professions. In what is still an emerging area of practice this text stands alone as a comprehensive source of reference for both students and practitioners across the full range of people professions. **101 Solution-Focused Questions for Help with Trauma** Fredrike Bannink, 2015-10-19 A step by step guide to conducting successful solution focused therapy for survivors of traumatic experiences.
