and trade subsidisation and protectionism in areas such as the solar energy industry Given this simultaneous presence of partnership and competition this edited volume investigates if Sino European relations have become what Henry Kissinger has termed a co evolution both China and Europe pursue their domestic imperatives cooperating where possible and adjust their relations to minimize conflict The volume sheds light on four key areas of Europe China relations first high politics and security relations second the European sovereign debt crisis third energy and environmental issues and fourth soft power and public diplomacy As the volume is authored by Chinese and European early stage scholars in equal numbers it adds a balance of perspectives and a future oriented outlook to the still low but increasing number of works on Europe EU China relations

Crafting the International Order Marcus M. Payk, Kim Christian Priemel, 2021 In the past few decades the understanding of the relationship between nations has undergone a radical transformation The role of the traditional nation state is diminishing along with many of the traditional vocabularies which were once used to describe what has been called ever since Jeremy Bentham coined the phrase in 1780 international law The older boundaries between states are growing ever more fluid new conceptions and new languages have emerged which are slowly coming to replace the image of a world of sovereign independent nation states which has dominated the study of international relations since the early nineteenth century This redefinition of the international arena demands a new understanding of classical and contemporary questions in international and legal theory It is the editors conviction that the best way to achieve this is by bridging the traditional divide between international legal theory intellectual history and legal and political history The aim of the series therefore is to provide a forum for historical studies from classical antiquity to the twenty first century that are theoretically informed and for philosophical work that is historically conscious in the hope that a new vision of the rapidly evolving international world its past and its possible future may emerge Book jacket

The Global Work of Art Caroline A. Jones, 2017-06-01 Global biennials have proliferated in the contemporary art world but artists engagement with large scale international exhibitions has a much longer history that has influenced the present in important ways Going back to the earliest world s fairs in the nineteenth century this book argues that globalism was incubated in a century of international art contests and today constitutes an important tactic for artists As world s fairs brought millions of attendees into contact with foreign cultures products and processes artworks became juxtaposed in a theater of nations which challenged artists and critics to think outside their local academies From Gustave Courbet s rebel pavilion near the official art exhibit at the 1855 French World s Fair to curator Beryl Madra s choice of London based Cypriot Hussein Chalayan for the off site Turkish pavilion at the 2006 Venice Biennale artists have used these exhibitions to reflect on contemporary art speak to their own governments back home and challenge the wider geopolitical realm changing art and art history along the way Ultimately Caroline A Jones argues the modern appetite for experience and event structures which were cultivated around the art at these earlier expositions have now come to constitute contemporary art itself producing encounters that transform the public and force us

to reflect critically on the global condition *Sexual Abuse, Shonda and Concealment in Orthodox Jewish Communities*
Michael Leshner, 2014-07-23 This book the first of its kind analyzes how and why cases of child sexual abuse have been systematically concealed in Orthodox Jewish communities The book examines many such cover ups in detail showing how denial backlash against victims and the manipulation of the secular justice system have placed Orthodox Jewish community leaders in the position of defending or even enabling child abusers The book also examines the generally disappointing treatment of this issue in popular media while dissecting the institutions that contribute to the cover ups including two rabbinic courts and local Orthodox patrols that are more or less unique to Orthodox Jewish communities Finally the book explores the cultural factors that have contributed to this tragedy and concludes with hopes and proposals for future reform
