**Materializing the Middle Passage** Jane Webster, 2023-10-31 An estimated 2 7 million Africans made an enforced crossing of the Atlantic on British slave ships between c 1680 and 1807 a journey that has become known as the Middle Passage This book focuses on the slave ship itself The slave ship is the largest artefact of the Transatlantic slave trade but because so few examples of wrecked slaving vessels have been located at sea it is rarely studied by archaeologists Materializing the Middle Passage A Historical Archaeology of British Slave Shipping 1680 1807 argues that there are other ways for archaeologists to materialize the slave ship It employs a pioneering interdisciplinary methodology combining primary documentary sources maritime and terrestrial archaeology paintings maritime and ethnographic museum collections and many other sources to rebuild British slaving vessels and to identify changes to them over time The book then goes on to consider the reception of the slave ship and its trade goods in coastal West Africa and details the range and uses of the many African resources including ivory gold and live animals entering Britain on returning slave ships The third section of the book focuses on the Middle Passage experiences of both captives and crews and argues that greater attention needs to be paid to the coping mechanisms through which Africans survived yet also challenged their captive passage Finally Jane Webster asks why the African Middle Passage experience remains so elusive even after decades of scholarship dedicated to uncovering it She considers when how and why the crossing was remembered by saltwater captives in the Caribbean and North America The marriage of words and things attempted in this richly illustrated book is underpinned throughout by a theoretical perspective combining creolization and postcolonial theory and by a central focus on the materiality of the slave ship and its regimes

Sovereignty at the Paris Peace Conference of 1919 Leonard V. Smith, 2018-03-09 We have known for many decades that the Paris Peace Conference of 1919 failed in the sense that it did not prevent the outbreak of World War II This book investigates not whether the Paris Peace Conference succeeded or failed but the historically specific international system it created It explores the rules under which that system operated and the kinds of states and empires that inhabited it Deepening the dialogue between history and international relations theory makes it possible to think about sovereignty at the Paris Peace Conference in new ways Sovereignty in 1919 was about not just determining of answers demarcating the international system but also the questions Sovereignty in 1919 was about remaking the world Most histories of the Paris Peace Conference stop with the signing of the Treaty of Versailles with Germany on 28 June 1919 Sovereignty at the Paris Peace Conference of 1919 considers all five treaties produced by the conference as well as the Treaty of Lausanne with Turkey in 1923 It is organized not chronologically or geographically but according to specific problems of sovereignty A peace based on justice produced a criminalized Great Power in Germany and a template problematically applied in the other treaties The conference sought to unmix lands and peoples in the defeated multinational empires by drawing boundaries and defining ethnicities The conference sought not so much to oppose revolution as to instrumentalize it in the new international system The League of Nations so often taken as the supreme symbol of the failure of the conference is better considered as a continuation of the laboratory of sovereignty established in Paris

### **Judicial institutionalization of integration**

**processes** Ricardo Caichiolo, 2016-09-07 The focus of this book is the judicial institutionalization of integration processes through the development of dispute settlement mechanisms more specifically in the Common Market of the South MERCOSUR to date the most important regional bloc in Latin America The bloc has been in existence since 1991 and has positioned itself as one of the potential regional blocs for trade and investment while becoming one of the important actors in the international community However its achievements have been tainted by the gaps and problems attached to the core foundation of the regional bloc MERCOSUR has been suffering or experiencing internal disputes and disunity due to its complex and low institutionalization a situation which can be seen as being paradoxical Its current Dispute Settlement Mechanism is subject to uncertainty and doubt since its own framework is also under internal and external criticism There has been a series of protocols made in order to tackle the problems of the DSM and to further fix the problems that hinder

the cooperation as well as the productivity of MERCOSUR's intra organisation all guided by intergovernmental decision making. As such, this book seeks to tackle the concept of regionalism and the possible models which have been used or have influenced the establishment of MERCOSUR while discussing the different aspects and developments of each intra organisation. This is done in order to evaluate the nature of the problem and future developments that could take place. The book also focuses on the prevalence of politicization in MERCOSUR and the pre-eminence of Presidential Diplomacy over the path of regional integration which influence the DSM of MERCOSUR and possible developments that might occur in the near future.
