Preparing Students for College and Careers Katie Larsen McClarty, Krista D. Mattern, Matthew N.

Gaertner, 2017-08-22 Preparing Students for College and Careers addresses measurement and research issues related to college and career readiness. Educational reform efforts across the United States have increasingly taken aim at measuring and improving postsecondary readiness. These initiatives include developing new content standards, redesigning assessments and performance levels, legislating new developmental education policy for colleges and universities, and highlighting gaps between graduates' skills and employers' needs. In this comprehensive book, scholarship from leading experts on each of these topics is collected for assessment professionals and for education researchers interested in this new area of focus. Cross-disciplinary chapters cover the current state of research, best practices, leading interventions, and a variety of measurement concepts, including construct definitions, assessments, performance levels, score interpretations, and test uses. **Twin**

Pandemics Alison L. Bailey, Jose Felipe Martinez, Andreas Oranje, Molly Faulkner-Bond, 2023-09-19 This book examines how the COVID-19 pandemic and racial inequities affect the educational assessment of students, either separately or in combination, as the health crisis was viewed as a factor intersecting with and exacerbating existing racial inequities in educational systems. The four empirical papers in this book attend to the challenges of implementing virtual standardized testing during the coronavirus pandemic, the different educational and assessment experiences of diverse groups of school-age students, and the reconsideration of traditional assessment approaches in response to mounting research evidence and growing concerns around enduring social and racial inequities faced by Black, Latinx, Asian, Indigenous, and other non-white citizens and communities. The four conceptual papers focus primarily on the ways in which assessment may contribute to systemic racism and offer potential solutions to move the educational assessment field forward. In totality, the volume offers needed empirical evidence, innovative methodological approaches, and theoretical and substantive examinations of the effects of the twin pandemics. **Twin Pandemics** will be a key resource for academics, researchers, and advanced students of Educational Assessment, Education, Psychometrics, Educational Research, Ethnic Studies, Research Methods, Sociology of Education, and Psychology. The chapters included in this book were originally published as a special issue of *Educational Assessment: Proceedings of the 3rd Progress in Social Science, Humanities and Education Research Symposium* (PSSHERS 2021).

Ifdil Ifdil, 2023-02-10 This is an open access book. The 3rd Progress in Social Science, Humanities and Education Research Symposium (PSSHERS 2021) was conducted on 3 November 2021 at the Universitas Negeri Padang, West Sumatra, Indonesia. The aim of the Symposium is to bring together scholars, students, researchers, and administrators from different countries and to discuss theoretical and practical issues in the fields of Science and Technology. Your prospective valuable contributions on this field will be evaluated by the Scientific Committee, and the ones approved to be presented will also be published in the Proceedings and selected will be published in *Journal of Science and Technology*. **November 2019 Monthly Current**
