English Learners' Access to Postsecondary Education Yasuko Kanno,2021-09-09 Why does a public high school despite having resources and educators with good intentions end up graduating English learners ELs without preparing them for college and career This book answers this question through a longitudinal ethnographic case study of a diverse high school in Pennsylvania The author takes the reader on a journey with seven EL students through their last two years of high school exploring how and why none of them reached the postsecondary destinations they originally aspired to This book provides a sobering look into the systemic undereducation of high school ELs and the role of high schools in limiting their postsecondary options

Policy-Making in the GCC Neil Quilliam,Mark C. Thompson,2017-09-11 The GCC is a major player in the post 2011 reordering of the Middle East Despite the rise in prominence of individual Gulf states especially Kuwait Qatar Saudi Arabia and the United Arab Emirates and the growth of the GCC as a collective entity surprisingly little attention has been paid to the actual mechanics of policy making in the region This book analyses the vital role that institutions are coming to play in shaping policy in the Gulf Arab states The research coincides with two key developments that have given institutions new importance in the policy process the emergence of a new generation of leaders in the Gulf and the era of low oil prices Both developments along with dramatic demographic change have compelled state and citizens to re evaluate the nature of the social contract that binds them together Contributors assess the changing relationship between state and citizen and evaluate the role that formal and informal institutions play in mediating such change and informing policy The book shows how academic social and economic institutions are responding to the increasingly complex process of decision making where citizens demand better services and further empowerment and states are obliged to seek wider counsel although wanting to retain ultimate authority With contributions from both academics and practitioners this book will be highly relevant for researchers and policymakers alike
