The Global Community Yearbook of International Law and Jurisprudence 2017 Giuliana Ziccardi Capaldo,2018-10-19 The Global Community Yearbook is a one stop resource for all researchers studying international law generally or international tribunals specifically The Yearbook has established itself as an authoritative source of reference on global legal issues and international jurisprudence It includes analysis of the most significant global trends in a way that allows readers to monitor the development of the global legal order from several perspectives The Global Community

Yearbook publishes annually in a volume of carefully chosen primary source material and corresponding expert commentary. The general editor Professor Giuliana Ziccardi Capaldo employs her vast expertise in international law to select excerpts from important court opinions and to choose experts from around the world to contribute essay guides which illuminate those cases. Although the main focus is recent case law from the major international tribunals and regional courts, the first four parts of each year's edition features expert articles by renowned scholars who address broader themes in current and future developments in international law and global policy themes that appear throughout the case law of the many courts covered by the series as a whole. The Global Community Yearbook has thus become not just an indispensable window to recent jurisprudence; the series now also serves to prepare researchers for the issues facing emerging global law. The 2017 edition of The Global Community Yearbook both updates readers on the important work of long-standing international tribunals and introduces readers to more novel topics in international law. The Yearbook has established itself as an authoritative resource for research and guidance on the jurisprudence of both UN-based tribunals and regional courts. The 2017 edition continues to provide expert coverage of the Court of Justice of the European Union and diverse tribunals from the International Court of Justice (ICJ) to criminal tribunals such as the International Criminal Court (ICC) and the Tribunals for the Former Yugoslavia and Rwanda to economically based tribunals such as ICSID and the WTO Dispute Resolution panel. This edition contains original research articles on the development and analysis of the concept of global law and the views of the global law theorists. It also includes expert introductory essays by prominent scholars in the realm of international law on topics as diverse and current as the erosion of the postwar liberal global order by national populism and the accompanying disorder in global politics; a bifurcated global nuclear order due to the Nuclear Non-proliferation Treaty and the Nuclear Weapons Prohibition Treaty; and the expansion of the principle of no impunity and its application to serious violations of social and economic rights. New to the 2017 edition, the author of the article in Recent Lines of International Thought will now talk about their own work as a Scholar Judge. In addition, this edition memorializes the late M. Cherif Baassiouni. The Yearbook provides students, scholars, and practitioners alike a valuable combination of expert discussion and direct quotes from the court opinions to which that discussion relates, as well as an annual overview of the process of cross-fertilization between international courts and tribunals and a section focusing on the thought of leading international law scholars on the subject of the globalization. This publication can also be purchased on a standing order basis. **Resources in Education**, 1988

Los espíritus de la ciencia ficción Luis C. Cano, 2017-11-15. Los espíritus de la ciencia ficción efectúan un análisis comparativo de tres de las novelas fundacionales de la ciencia ficción hispanoamericana publicadas como folletines en la segunda mitad del siglo XIX: *Viaje maravilloso del señor Nic-Nac al planeta Marte* de Eduardo Ladislao Holmberg (Argentina, 1875); *Desde Júpiter* de Francisco Miralles (Chile, 1877); y *Querens* de Pedro Castella (México, 1890). Además de reunir los atributos que de manera consistente se presentan en un texto de ciencia ficción: imitación o parodia de alguno de los rasgos

convencionalmente aceptados como distintivos de un texto científico evaluación de los discursos y sujetos de la ciencia reflexión crítica sobre el Tiempo como categoría las tres novelas ponen en narrativa una síntesis de los programas espiritistas desarrollados por Allan Kardec y Nicolas Flammarion con las propuestas darwinianas en boga en su momento De forma coherente con las inquietudes políticas y las reflexiones intelectuales que definen los programas de desarrollo de las naciones recientemente independizadas los tres textos intentan concretar una identidad genérica oscilando entre los requisitos editoriales establecidos por la institución periodística la necesidad de adecuarse a los imperativos de construcción de la idea de nación en los respectivos países y el compromiso de encontrar un balance entre la literatura de lites y la cultura popular El libro ofrece substanciales contribuciones al discernimiento de las primeras instancias de configuración de la ciencia ficción a través del estudio del folletín en la escritura decimonónica de la interacción entre periodismo y narrativa y de la confluencia entre el ocultismo y la literatura en las letras de Hispanoamérica durante el siglo XIX
