Byczek, 2024-05-06 There is not an honorable man among its practitioners who would not give who does not often give the warning Suffer any wrong that can be done you rather than come here The nightmare that probate can cause for heirs even with a Will was memorialized in the fictional portrayal of Bleak House by Charles Dickens in 1853 Chapter I where the narrator of the book advises the reader to stay away from probate proceedings If you are single without children what happens to your pets money assets and property when you die If you pass away without a Will a probate judge decides who should administer your estate and may leave property distribution to people who don't have your best interests in mind A Will is one way to speak while you are still living with your own written instructions such as Name a guardian for your pets and leave money for their care Itemize property to be given to multiple beneficiaries Decide what happens to your condo house or vehicle Leave instructions about digital assets such as cryptocurrency or NFTs Make funeral arrangements Some scenarios are straightforward such as an only child leaving behind one or both parents They inherit everything which is even easier if still married to each other But what happens if you have siblings your parents are deceased or you have very close friends who are not legal relatives You may think that your significant other has status especially if you are living together or even engaged The opposite is true Your friends and relatives can delete the most important people in your life while ransacking your property and assets for their personal gain or revenge It's possible that relatives you have never met or don't even like are awarded portions of your property People you don't even know may make decisions that you would never approve An important strategy is a digital estate plan like an enhanced Will What happens to all your social media content online photos movies or music A Will allows you to expressly name a data executor and provide this person with your login credentials to access all of your accounts in accordance with your instructions Without a Will a probate judge may not approve and tech companies may not allow your friends or family to close or otherwise access these accounts Also discussed is your digital afterlife where tech companies can use artificial intelligence AI to bring you back to life through a virtual avatar trained with your life's worth of photos videos audio and online activity i.e. social media This includes a brief tutorial

house for a run and didn't return. Twenty years later a reporter arrives in the small town of Griffiths to write an article about the unsolved murder of Laura McPherson. He is the most recent in a long line of journalists, podcasters, and amateur sleuths seeking new insights into what really happened to Laura. Laura's younger brother David, a repressed and stuck thirty-something, is dealing with the recent death of his mother when the reporter comes knocking. The last surviving family member, David, has lived a sheltered life protected from the prying eyes of the media by his mother. But David cannot escape the past forever and soon finds himself confronting the lasting impact of his sister's death. As David learns more about his sister and the history of Griffiths, his eyes are opened to the casual violence, misogyny, and racism that lurk just below the surface of his seemingly placid community. Provocative and haunting, *Not That Kind of Place* is a literary anti-mystery, a compelling exploration of our obsession with true crime stories and the devastating effects of systemic violence on our most vulnerable populations.
