Fat Tire Flyer Charlie Kelly, 2034-05 The most important development in bicycling of the 20th Century was the mountain bike For decades American kids had ridden their balloon tire bicycles on dirt roads and trails In the 1970s an unlikely band of bicyclists started modifying these old bikes to ride off road This led to the first contest of speed for the old bikes the Repack Downhill which started in 1976 Racing downhill led to the development of bicycles made for the purpose In 1979 a small company called MountainBikes marketed the first commercial versions which led to a revolution in the bicycle industry and a new Olympic and world championship sport *Fat Tire Flyer* is a firsthand account of these events from one of the participants

Fat Tire Flyer Charlie Kelly, 2023-07 Charlie Kelly co founder of the MountainBikes company with Gary Fisher organizer of the Repack races and chronicler of the sport now delivers the true complete and often unbelievable history of the rise of mountain biking and its lasting culture It all started with a small crew of bicycle obsessed hippies bombing the downhill trails of Mount Tamalpais in Marin County California As the friendly competition intensified on the steep dirt trail they called Repack history s first mountain bikers began craving an upgrade from the old Schwinn cruisers they had rescued from the junkyard With the single minded focus found only among the truly obsessed this rag tag group sparked a rapid evolution that transformed the castoff Repack bomber into the modern mountain bike a refined and elegant machine that quickly became the top selling bicycle in the world *The Mechanical Horse* Margaret Guroff, 2018-01-04 In this lively cultural history
