**Infectious Disease After Ebola** Sam F. Halabi, Lawrence O. Gostin, Jeffrey S. Crowley, 2016-09-28 The 2014 2015 Ebola outbreak in West Africa shocked the world with its devastation and its rapid migration to multiple continents As the systems meant to respond to this sort of epidemic failed the disease exposed not just weaknesses in international infectious disease surveillance and management but the failures of governments humanitarian organizations and international institutions to handle the legal ethical and economic questions that arose with an event of this scale **GLOBAL MANAGEMENT OF**

INFECTIOUS DISEASE AFTER EBOLA unites the insights of Ebola's first responders with those of the world's foremost experts in law, economics, vaccine development and global migration to identify missed opportunities from the Ebola crisis and to apply these lessons to emerging infectious disease threats. Framed with critical discussions of both the global health financing infrastructures that precipitated the response and the ethical and human rights dilemmas that resulted from it, this volume is much more than postmortem to an outbreak; it is a vital, sometimes damning examination of where we've been and where we're going in the face of emerging infectious diseases. *The Permanent Coup* Lee Smith, 2020-08-18 From the phony Russia collusion narrative to the coordinated riots laying waste to US cities, it's the same ongoing operation orchestrated by the left and targeting not just President Trump but hundreds of millions of Americans who revere their country and what it stands for. For the first time, crusading investigative journalist Lee Smith reveals who was responsible and the never-before-known involvement of Barack Obama, Joe Biden and senior military officials who engineered a coup against a sitting president. Beginning in late 2015, political operatives, intelligence officials and the press pushed a conspiracy theory about Trump: he was a Russian asset and spied on his campaign and his presidency in order to undo an election. Because the ultimate goal of the anti-Trump operation is not simply to topple the president but rather to change the character and constitution of the country, the Deep State's machinations didn't stop even after Trump was cleared of charges of colluding with Moscow. Their efforts became even more fierce, more desperate and more divisive, threatening to scar America permanently. In their zeal to bring down President Trump, Deep State conspirators had unwittingly revealed the origins of the anti-Trump operation and exposed corruption at the very highest levels of the Democratic party, including former Vice President Biden and his boss Barack Obama. Lee Smith brings to this story the same incisive reporting and commentary that distinguished his runaway bestseller *The Plot Against the President*. His investigation identifying crimes and abuses committed by senior US officials was later confirmed by a major Department of Justice report. For *The Permanent Coup*, Smith again enjoys unrivaled and exclusive access to the main players defending America and uncovering Deep State crimes, including Congressman Devin Nunes and the president's personal lawyer Rudy Giuliani. **Human Rights in the Extractive Industries** Isabel Feichtner, Markus Krajewski, Ricarda Roesch, 2019-06-13 This book addresses key challenges and conflicts arising in extractive industries: mining, oil drilling, concerning the human rights of workers, their families, local communities and other stakeholders. Further, it analyses various instruments that have sought to mitigate human rights violations by defining transparency-related obligations and participation rights. These include the Extractive Industries Transparency Initiative (EITI) disclosure requirements and free prior and informed consent (FPIC). The book critically assesses these instruments, demonstrating that in some cases they produce unwanted effects. Furthermore, it highlights the importance of resistance to extractive industry projects as a response to human rights violations and discusses how transparency, participation and resistance are interconnected. *Research Handbook on EU Internet Law* Andrej Savin, Jan
