Emblematic Structures in Renaissance French Culture Daniel Russell,1995-12-15 The emblem and the device or impresa as it was called in Italy were the most direct and telling manifestations of a mentality that played a significant role in the

discourse and art in Western Europe between the late Middle Ages and the mid eighteenth century In the history of Western symbolism the emblematic sign forms a bridge between late medieval allegory and the Romantic metaphor These intricate combinations of picture and text where the picture completes the ellipses of an epigrammatic text and where the text fixes the intention of the pictured signs provide useful clues to the way pictures in general were read and textual descriptions visualized in early modern Europe Daniel Russell demonstrates how the emblematic forms emerged from the way illustrations were used in late medieval French manuscript culture how the forms were later disseminated in France and how they functioned within early modern French culture and society He also attempts to show how the guiding principles behind the composition of emblems influenced the production of courtly decoration ceremony and propaganda as well as the composition of literary texts as different as Maurice Scève's *Delie* Montaigne's *Essais* and Du Bartas's *Sepmaine*

Ornament T. L. J. Howard, Michael Snodin, Maurice Howard, 1996-01-01 In a wide ranging and richly illustrated book the authors begin by tracing the ways ornament has been used over the last five centuries the rules of decorum and etiquette associated with it and the social moral and spiritual values it has represented They examine how architecture set the agenda for ornament in the Renaissance and how printed images carried a common vocabulary of ornament throughout the Western world They survey the personal side of ornament both in dress and in the domestic interior a private expression of the self and a public

statement of social and cultural status They look at ornament in the public domain from the lavish decoration and symbolism of a town pageant to the logos of today's corporate industry and show how the ever evolving role of ornament is to invent and embody the collective spirit of communities at work and at leisure They conclude by discussing how the Western tradition of ornament has responded to and absorbed exotic African and Asian motifs Moresque motifs of the Near East and such familiar designs as the Paisley and Willow patterns
