To control connected devices using the remote

This player is equipped with a built-in IR Blaster that accepts remote commands and sends them to various connected devices to control them with your remote.

When you set the player close to a connected device (as illustrated on the right), you can control the device using the remote, including operations such as changing TV channels or adjusting the volume of an AV Receiver.

However, if you place the player in a location where IR signals cannot reach, you cannot control connected devices with the built-in IR Blaster. In this case, connect the supplied IR Blaster as follows:
1 Connect the IR Blaster cable to the player.
2 Place the IR Blaster so that the infrared transmitter points to the IR receiver (sensor) on the device you want to control, as illustrated on the right.

* Location of the IR receiver may vary depending on the product you are using.

In the Box

- Network Media Player
- Remote control (Remote) (1)

To insert batteries into the remote control

- AC power cord (1)
- HDMI cable (1) (NSZ-GX70 only)
- Size AA batteries (2)

- IR (infrared) Blaster cable (1)

What's this?

This IR Blaster enables you to control connected devices with your remote. Please see "To control connected devices using the remote" shown below for more information.
