EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine **The Wire** Tiffany Potter, C. W. Marshall, 2010-06-01 The first collection of critical essays on HBO's *The Wire* the most brilliant and socially relevant television series in years *The Wire* is about survival about the strategies adopted by those living and working in the inner cities of America It presents a world where for many even hope isn't an option where life operates as day to day existence without education without job security and without social structures This is a world that is only grey an exacting autopsy of a side of American life that has never seen the inside of a Starbucks Over its five season sixty episode run 2002-2008 *The Wire* presented several overlapping narrative threads all set in the city of Baltimore The series consistently deconstructed the conventional narratives of law order and disorder offering a view of America that has never before been admitted to the public discourse of the visual It was bleak and at times excruciating Even when the show made metatextual reference to its own world as Dickensian it was

too gentle by half By focusing on four main topics Crime Law Enforcement America and Television The Wire Urban Decay and American Television examines the series place within popular culture and its representation of the realities of inner city life social institutions and politics in contemporary American society This is a brilliant collection of essays on a show that has taken the art of television drama to new heights [Jet](#) ,2007-12-10 The weekly source of African American political and entertainment news [The Wire](#) Sherryl Vint,2013-03-15 Analyzes how The Wire repurposed television drama for political critique Frequently described by creator David Simon as a novel for television The Wire redefined the police serial format by unfolding its narrative across many episodes constructing themes for each of its seasons and refusing to portray individual crimes outside of their social context While it never achieved spectacular ratings or won an Emmy during its 2002 2008 run on HBO the show was honored with several awards and has been described by critics as the best show on television In this volume author Sherryl Vint takes a close look at several episodes of The Wire to argue that the series challenges our understanding of the relationship between entertainment and social critique Informed by recent work on race poverty and the transformation of the American inner city through neoliberalism Vint provides a compelling analysis of The Wire in four chapters First she examines the season 1 episode The Buys as an example of the ways in which The Wire diverges from the police procedural format She continues by considering season 2's All's Prologue and season 3's Middle Ground to explore in more detail The Wire's critique of the exclusions of the capitalist economy In the final two chapters she looks at Final Grades the fourth season finale to highlight the problems with institutional inertia and show both the need for and barriers to reform and uses the season 5 episode Clarifications to consider the failure of the media to adequately reflect the social issues depicted in The Wire One of the landmark series of recent television history The Wire is ripe for research and discussion Fans of the series and those interested in social commentary and the media will appreciate Vint's new analysis in this volume
