Clymer, 2023-08-29 170 pages and more than 450 illustrations and charts size 8 25 x 10 75 inches This workshop manual is a  
compilation of 4 original Honda publications It includes a reproduction of the original 250cc and 360cc twin cylinder 1974  
factory workshop manual for both the disc brake and drum brake models plus 3 factory supplements that cover both the 5  
and 6 speed variants which extends the coverage of the original manual through 1977 The models covered are CB250 CJ250T  
CB360 CL360 CB360T and CJ360T Many of the earlier Honda motorcycle models were often introduced at different times  
and in different countries using different model names or designations For example the CB 250 was predominantly sold in  
the European market and not officially available in the USA However the 360cc models were available in both Europe and  
the USA Unfortunately this often leads to difficulty in selecting the correct workshop manual and owners of this series of  
250cc and 360cc twins are subjected to considerable confusion surrounding the appropriate selection from the multitude of  
OEM publications that have recently flooded the on line marketplace This confusion is compounded by the fact that Honda  
used both 5 and 6 speed transmissions within the 1974 to 1977 production run of the 250 360 series Owners of the 1968  
1973 twin cylinder 5 speed 250cc and 350cc models are directed to our Honda factory workshop manual ISBN

understandable In addition while we have done our best to identify any anomalies errors and incorrect spelling that may have  
occurred during the original translation process we are certain that we will have missed one or two and we request your
