How To Start A Cartel :

How Cartels Endure and how They Fail Peter Z. Grossman,2004-01-01 Why do some cartels fail and others succeed This question has intrigued economists for a hundred years and they have created an extensive body of theory to help explain cartel behaviour This book looks at the experience of actual cartels and challenges their portrayal as found in the existing literature The eleven chapters by leading researchers of industrial organization study real examples of industrial collusion The authors investigate the formation behaviour activity and purpose of cartels and illustrate the intricacies of collusive relationships In the process they question the existing economic theory surrounding the operation of cartels which in practice do not always adhere to the textbook models or to complex game theoretic rules Although much economic research suggests that cartels are doomed to failure the authors find that there are many examples of industries where cartels have succeeded in controlling prices and output over a prolonged period of time The book is a groundbreaking attempt to study empirically a range of cartels throughout the world providing both historical and contemporary examples of collusion to enrich the arguments This book is written for academics policymakers lawyers and economists working in the fields of industrial organization and competition policy Industrial Organization Paul Belleflamme,Martin Peitz,2015-08-13 Updated according to classroom feedback this comprehensive textbook blends theory and formal models with real world applications and take away lessons *Handbook of Industrial Organization* ,2021-12-09 Handbook of Industrial Organization Volume 4 highlights new advances in the field with this new volume presenting interesting chapters Each chapter is written by an international board of authors Part of the renowned Handbooks in Economics series Chapters are contributed by some of the leading experts in their fields A source reference and teaching supplement for industrial organizations or industrial economists So You Want To Be The Boss?
