

Smart 400 MK2 Wind Turbine

EcoInnovation Smart Drive Wind Turbine Manual

Introduction

The Smart 400 Watt wind turbine is a battery charging wind generator designed to supply power for light duty electrical requirements in remote areas.

It is not intended as a sole source of power in a Renewable Energy system but should be used in conjunction with Photovoltaic Panels (PV). This turbine has been designed using the parts used in Fisher & Paykel washing machines. Replacement parts if required are therefore plentiful and cheap to purchase.

Taking account of the benefits of using Smart Drive parts and the cost of our turbine relative to the competitors of a similar rating we feel that our turbine represents excellent value for money. This turbine is not designed to withstand prolonged wind speeds in excess of 100 km/h. If such wind are expected the turbine should be lowered to the ground.
