

Hurricane Wind Retrofit Technical Review

This job aid supplement covers requirements associated with the technical reviews for hurricane wind retrofit projects funded by Hazard Mitigation Assistance. FEMA will also conduct an Environmental Planning and Historic Preservation review of each project. Refer to the Hurricane Wind Retrofit: Information Required for Environmental Review Job Aid.

This Technical Review Supplement provides additional information, examples and potential sources of documentation for items in the job aid to help communities applying for Hazard Mitigation Assistance grants comply with application requirements.

- All Hazard Mitigation Assistance (HMA) applications must comply with the requirements outlined in the HMA Guidance.
- According to the guidance, in addition to a general programmatic review, an EHP review and a technical review will be performed by FEMA for each proposed project.
- The technical review will verify that a project demonstrates feasibility, effectiveness and cost-effectiveness. The document is intended for technical reviews of applications only.
- For assistance completing EHP compliance reviews, see the EHP Supplement Job Aids.

Introduction

The following provides a review of the information that should be provided with the grant application, including recommended documentation and a list of supplemental information, to assist FEMA when conducting technical reviews of the project application. Technical resources are identified throughout this supplement to provide clarifying information on specific project application components. The final section provides a comprehensive list of resources identified throughout this supplement.

It is recommended that the grant applicant consult a professional engineer to assist in preparing the application, as many of the documentation requirements for hurricane wind retrofit applications are technical in nature. An engineer will be required for the initial hurricane retrofit building assessment, design and implementation. For complex hurricane wind retrofit projects, applicants may want to consider Advanced Assistance or a phased project approach (phasing is allowable for Hazard Mitigation Grant Program [HMGP] and Building Resilient Infrastructure Communities [BRIC] projects only). Initial funds can be obtained (Advanced Assistance or Phase 1) to produce a detailed design of the project for further FEMA review and approval (Phase 2 or HMGP Application Development). Refer to HMA Guidance, Part VIII, A.1.2 and A.1.3 for additional advanced assistance and phased project requirements and guidance.

The project-specific guidance in this supplement does not provide all the information necessary to apply for funding through an HMA program and must be read in conjunction with all other relevant guidance documents.
