

→ HUKY

The first step in the process is to identify the problem. This involves gathering information about the situation and understanding the needs of the stakeholders involved. Once the problem is identified, the next step is to develop a plan of action. This plan should outline the goals of the project, the tasks that need to be completed, and the resources that will be required. The third step is to implement the plan. This involves putting the plan into action and monitoring progress. The final step is to evaluate the results. This involves assessing the outcomes of the project and determining whether the goals have been achieved.
