

## How to: Put a Band-Aid on Your Fingertip

The first aid box may be the go-to place for a minor wound but band-aids almost always end up ragged, coming off or leaving a grey smudge on your finger. Follow this tutorial to find the perfect way to ensure that your band-aid stays put, doesn't fall off, and does its job.

1

Take a band-aid, and using a pair of scissors, make two cuts dividing the band-aid into two horizontal halves, leaving the cotton part of the band-aid intact.

2

Start taking each quarter and pressing it onto the finger

3

Take each quarter of the band-aid to its opposite corner and press it firmly in place, as illustrated above

4

The band-aid has been applied and will last much longer than one applied without using this technique.
