

WARNING

FCC Regulations state that any unauthorized changes or modifications to this equipment not expressly approved by the manufacturer could void the user's authority to operate this equipment. **Note:** This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when this equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

CAUTION

The socket-outlet shall be installed near the equipment and shall be easily accessible.

FOR YOUR RECORDS

Please record below the model and serial numbers, for easy reference, in case of loss or theft. These numbers are located on the right side of the unit. Space is provided for further pertinent data.

Model Number _____
Serial Number _____
Date of Purchase _____
Place of Purchase _____

Handling Cautions

Install the cash register in a location not subject to direct sunlight, unusual temperature changes, high humidity, or splashing water.

Do not operate the cash register with wet hands. Water can cause internal component failure.

The cash register plugs into any standard wall outlet (120V AC x 60Hz). Avoid connecting any other electrical devices on the same electrical circuit since such connection could cause the cash register to malfunction.

When cleaning the cash register, use a dry, soft cloth. Never use volatile liquids, such as benzene or thinner. Chemicals can dissolve or damage the cabinet.

For protection against data loss, please install three new "AA" batteries before using the cash register. However, even longer, you must initialize the cash register before installation of batteries; otherwise damage to memory contents or malfunctioning of the register will occur. You can start operating it only after initializing it and then installing batteries.

For complete electrical disconnection, pull out the main plug.

SHARP ELECTRONIC CASH REGISTER

SHARP ELECTRONIC CASH REGISTER

MODEL

XE-A101

INSTRUCTION MANUAL

Printed in Korea
C/T98E24578H-GC ©

Thank you for purchasing the SHARP Electronic Cash Register Model XE-A101. Please read this manual carefully before operating your machine. Keep this manual for future reference. It will help you solve any operational problems that you may encounter.

For assistance call
1-800-BE-SHARP

For Easy Set-up,
See "Getting Started"

Getting Started

Initializing the Cash Register

For your cash register to operate properly, you must initialize it before programming for the first time. Follow this procedure:

1. Remove the register from its packing carton.
2. Set the mode switch to the REG position.
3. Insert the plug into the AC outlet. **WARNING:** This operation must be performed without batteries installed.
4. The buzzer will sound three times. Now your cash register has been initialized. The display will show "0.00" with "A" on the right.

Installing Batteries

Batteries must be installed in the cash register to prevent data and programmed contents from being lost from the memory in case of accidental disconnection of the AC power source. Please install three new "AA" batteries before programming and operating the cash register. Once installed, the batteries will last approximately one year. When it is time to replace them, the "L" symbol will appear on the display to indicate a low battery voltage. If the symbol appears, you must replace them within five days.

1. Install the batteries according to this procedure with the AC cord connected.
2. Push the printer cover forward and detach it.

3. Open the battery cover next to the paper roll release.

4. Insert three new AA batteries.

5. When the batteries are properly installed, "A" on the display will disappear. Close the battery cover.

6. Attach the printer cover.

Improper use of batteries could cause them to burst or leak, which might damage the receiver circuitry. Please take the following precautions:
- Be sure that the positive (+) and negative (-) poles of each battery are oriented properly.
- Never mix old batteries and new ones.
- Never leave dead batteries in the battery compartment.
- Remove the batteries if you plan not to use the cash register for long periods.
Should a battery leak, clean out the battery compartment immediately, taking care not to let the battery fluid come into direct contact with your skin.

Installing a Paper Roll

Always install the paper roll even when you set the register for not printing journal or receipt in REG mode.

1. Push the printer cover forward and detach it.
2. Push the paper roll release lever and install the paper roll so that the paper unrolls from the bottom.

3. Insert the paper straight into the paper inlet, and press the [F] key. The inserted end comes out at the printing area.

4. (For journal printing) Insert the top end of the paper into the slit in the take-up spiral shaft and wind the paper two or three turns. Then place the take-up spiral on the bearing.

5. Attach the printer cover.

(For receipt printing, step 4 should be omitted.)

Setting the Time

Set the mode switch to the ZPGM position and enter the time in 4 digits ("hours") format using the 24-hour system. Press the [C] key once to continue programming or twice to exit the program mode.

0000 22 22

Time (H:M:S)

Always enter the time in 4 digits even when the hour is in the single digit. For example, enter 01:00:00 for 1:00 a.m., 14:00:00 for 2:00 p.m., and 00:00:00 for 12:00 a.m.

Setting the Date

In the ZPGM mode, enter the date in 6 digits using the month-day-year format. Press the [C] key once to continue programming or twice to exit the program mode.

000000 22 22

Year (YY) Month (M) Day (D)

Always enter the date in 6 digits. For example, enter 20000215 for March 15, 2000. If you change the date format in the ZPGM mode, follow the newly specified format when setting the date.

Checking the Time and Date

1. You can display the time and date to check if they are correctly set.
2. Set the mode switch to the REG position.
3. Press the [F] key once to display the time.
4. Press the [F] key a second time to display the date.

Programming the Tax Rate

Before you can proceed with registration of sales, you must first program the tax that is levied in accordance with the law of your state. Your cash register comes with the ability to program four different tax rates. In most states, you will only need to program Tax 1. However, if you live in an area that has a separate local tax (such as a "Palm tax") or a temporary tax, your register can be programmed to calculate these separate taxes.

In order to program the tax to be collected in accordance with the law of your state, you must specify the tax rate(s) and minimum taxable amount(s).

When you program the tax status for a department, tax will be automatically added to sales of items assigned to the department according to the programmed tax status for the department. You can also enter tax manually.

There are two tax programming methods. The tax rate method uses a straight percentage rate per dollar. The tax table method requires tax break information from your state or local tax office. Use the method which is acceptable in your state. You can obtain necessary data for tax programming from your local tax office.

(For tax table programming, see "programming")

Tax Rate Programming

The percent rate specified here is used for tax calculation on taxable substrates. Set the mode switch to the ZPGM position and use the following sequence to program the tax rate:

0 → 22 → Tax number (1-4) → 22 → R

where R and Q represent the following:

R: Tax rate (0.0000% to 99.9999%) x 10000

(Enter the rate in 4 digits (leading zeros may be omitted). If the rate is fractional (e.g., 4.58%), it should be converted to its decimal equivalent (4.58%) before entering.)

Q: Minimum taxable amount (0.01 to 99.99) x 100
Subtotal amount for which tax must be collected. In some states, sales whose amounts are less than the minimum taxable amount are not subject to tax. If amount \$0.01 to \$9.99 are not taxed, the value of Q would be 11 (for \$9.99), the lowest of the first taxable category.

02 0 0 000000 00

Tax 1 Tax 2 Tax 3 Tax 4

Changing Other Settings As Necessary

Your cash register is pre-programmed so that you can use it with minimum setup. To change the initial settings, see the appropriate sections.

Initial Settings

Departments 1 to 8:
- Quantity 0 to 9999, Present price: 0.00
Non-taxable: Positive (+), Present price: 0.00
PLU codes 0 to 10:
- Assigned to digit 1, Present price: 0.00
PLU codes 11 to 99:
- Not used
