Dodek, 2016-12-30 *Regulating Judges* presents a novel approach to judicial studies It goes beyond the traditional clash of judicial independence versus judicial accountability Drawing on regulatory theory Richard Devlin and Adam Dodek argue that judicial regulation is multi faceted and requires us to consider the complex interplay of values institutional norms procedures resources and outcomes Inspired by this conceptual framework the book invites scholars from 19 jurisdictions to describe and critique the regulatory regimes for a variety of countries from around the world *Constitutional Adjudication in Africa* Charles M Fombad, 2017-09-01 Since the 1990 wave of constitutional reforms in Africa the role of constitutional courts or courts exercising the power to interpret and apply constitutions have become a critical aspect to the on going process of constitutional construction reconstruction and maintenance These developments appear at least from the texts of the revised or new constitutions to have resulted in fundamental changes in the nature and role of courts exercising jurisdiction in constitutional matters The chapters in this second volume of the Stellenbosch Handbooks in African Constitutional Law series are the first to undertake a critical and comparative examination of the interplay of the diverse forms of constitutional review models on the continent Comparative analysis is particularly important given the fact that over the last two decades constitutional courts in Africa have been asked to decide a litany of hotly contested and often sensitive disputes of a social political and economic nature As the list of areas in which these courts have intervened has grown so too have their powers actual or potential By identifying and examining the different models of constitutional review adopted these chapters consider the extent to which these courts are contributing to enhancing constitutionalism and respect for the rule of law on the continent The chapters show how the long standing negative image of African courts is slowly changing The courts have in responded in different ways to the variety of constraints incentives and opportunities that have been provided by the constitutional reforms of the last two decades to act as the bulwark against authoritarianism and this provides a rich field for analysis filling an important gap in the literature of contemporary comparative constitutional adjudication This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations
