Multicampus University Systems Ishmael I. Munene, 2014-08-27 In the face of increasing social demand and cutbacks in state budgetary support universities in African countries are now turning towards a multicampus system strategy As African governments have adopted neoliberal education policies that place premium on entrepreneurialism profit making privatization and markets as drivers of university development a reshaping of the academic work and organizational framework have taken place However little is known about the impact of this paradigm shift on access quality and governance in higher education This book fills the void in research and academic knowledge about the impact of the emerging university configurations in Africa It analyzes the paradox surrounding the performance of multicampus university systems as avenues of broadening university access but whose structural success may be qualitatively contested This book offers a refreshing examination of the African multicampus university system from both an African and global perspective It makes use of empirical data from Kenya collected during extensive fieldwork along with substantive library and documentary resources on the rest of the continents to fortify arguments and demonstrate important conclusions This allows for a comparative analysis of policies and strategies used in the establishment of campuses both within and beyond national boundaries in the continent and will be a welcome contribution to the existing repertoire on African universities Strategic Urban Development Plan for Kisii Municipality (2009-2029) ,2010 **Guide to Politics in Kisii** Ben Omoro,1979 **Kenya Yearbook** ,2019 The Higher Education Institutions Handbook ,2012 *Thus Until* Emilia Ilieva,Reuben Matheka,2025-08-04 *Thus Until A History of Egerton University* is a thorough historical chronological and well researched account of Egerton University from a whites only college when it started in 1939 through to the expansion it has experienced over the years culminating in being a full university More than any other university in Kenya Egerton has a long and colourful history but like all the other universities it has suffered from the political economic and financial challenges of the time especially since the double intake of the 1990s Chapter One provides the required background to the study highlighting agricultural and educational policies and steering away from the Happy Valley hype so characteristic of the period The reader will learn about the Egerton family in Chapter Two and particularly about Lord Egerton himself and the colonial circumstances within which he lived The chapter dispels some of the popularly held myths about him Chapter Three deals with the beginnings of the college and the various structural and curriculum experiments tried out and the kind of enrolment and students it experimented with as an all white establishment The chapter ends with Africans beginning to agitate for change With great attention to detail the later chapters put the university in a broader local and international context thereby increasing its relevance to society A History of Egerton University though heavily footnoted and with a detailed bibliography is written in a simple easy flowing and accessible style **Kenya National Assembly Official Record (Hansard)** ,1979-12-04 The official records of the proceedings of the Legislative Council of the Colony and Protectorate of

Back to the Future R. W. Michieka, 2009 **The Development of Tertiary Education in the Eastern African Region**

Isabella M. Musyoka-Kamere, Daniel Namusonge Sifuna, Kisilu Kombo, 2023-11-16 This book gives a riveting account of the higher education advancements made in five East African countries each presenting unique characteristics While some of the counties enjoyed relative calm throughout their years of growth and development others have endured a turbulent past marked by civil war coups and other forms of unrest including one of the most atrocious genocide events ever recorded in the history of mankind It is a known fact that the past defines the present and describes the future The book specifically tracks the historical development of teacher education technical and vocational education and training and university education in Kenya Uganda Tanzania Rwanda and Burundi The extensive research and up to date accounts provide a rich overview of tertiary education in the five countries with candid reviews of the past the current situation and perspectives on the future The book is a refreshing addition to the books of history and education and a must read for students professionals and policy makers in the field of higher education as well as scholars of history **Kenya National Assembly Official Record**
