Chaloupka, 2012-12-06 Czechoslovak Society for Microbiology and Institute of Microbiology of the Czechoslovak Academy of Sciences organized an international symposium Extracellular enzymes of microorganisms in September 1986 The symposium took place in a small South Bohemian town Bechyne and this book includes the main contributions presented at the meeting The study of microbial extracellular enzymes is a rapidly developing field of science which is important both from practical and theoretical point of view On one hand microbial enzymes are nowadays broadly used in various branches of industry medicine and agriculture on the other hand their study contributes substantially to our knowledge of problems of protein secretion regulation of protein synthesis as related with growth and cytodifferentiation and last but not least it brings data important for the elucidation of evolutionary pathways Microbial enzymology also represents a bordering area between different scientific disciplines such as microbiology biochemistry genetics biotechnology and other and demonstrates that only their integration brings about a substantial progress in the development of our understanding of biological processes The symposium in Bechyne was a small one but the contributions of scientists from 15 different countries have brought information on recent approaches and developments in this field I hope that this meeting was useful in facilitating closer contacts between specialists from different scientific areas and also contributed to a better understanding among people from different parts of the world **Efficient Logistics** Luis C. Tao, 2014-01-02 Vietnam has attained a strong record of economic growth and poverty reduction since the adoption of market based economic reforms and pro poor policies starting in the mid 1980s Much of this achievement was driven by an untapped rapidly growing labor force and the enablement of greater labor participation in higher productivity sectors of the economy Yet as Vietnam has restructured its economic activity towards manufacturing more mechanized primary sector production and increasingly services and as the labor force is projected to expand at a markedly lower rate than before finding new sources of productivity improvements has become the key to sustaining economic growth going forward Improvements in freight logistics can unlock productivity gains across the Vietnamese economy for years to come The shippers and carriers that operate the supply chains that connect Vietnam to the global economy generally perceive that logistics costs in Vietnam those incurred when moving storing and inspecting goods are more onerous than in peer economies like China Malaysia and Thailand even as they are also perceived to be more competitive than those in other developing Asian countries While many factors may contribute to costly logistics the main source of underperformance in Vietnam's logistics sector appears to be the inventory carrying implications of unreliable freight itineraries unpredictable inspection and clearance procedures and an uncertain planning legal and regulatory framework By making commerce more predictable particularly for regional and inter continental trade more efficient logistics can lower the cost of doing business boost competitiveness attract investment and generate employment In short efficient logistics can become a driver of lasting growth Directed at industry practitioners and

policy makers alike this report highlights five key initiatives to improve the reliability and cost effectiveness of transportation and logistics in Vietnam s domestic and international supply chains These include i modernizing the customs system more broadly to enable goods clearance in a consistently timely manner ii enhancing regulatory transparency to minimize discretion in the regulation of commerce iii promoting multimodal transport corridor planning iv enhancing competition and professionalism in the trucking industry and v deploying capacity more strategically at major gateways particularly at Cai Map Thi Vai

Field Artillery ,2007 *Memoirs of a Deployed Airman* Patrick B. Monahan,2009 Almost as if it were a dream day number 360 came and I was transported into another world The flights were long but within just a couple of days I found myself back at my original starting point Salt Lake City Utah Before arriving in Salt Lake City though I was greeted by my parents and my in laws at Baltimore Washington International BWI airport As I scrambled through the baggage claim area and customs I made my way towards my release from the regimented deployment world Both sets of parents were poised and ready to greet me and my friends returning from overseas Upon catching a glimpse of me they popped out of their seats and began waving small American flags in my general direction It was very nice to see them and it was a nice patriotic sight I arrived at the airport at approximately midnight and I was hungry so we all went out to eat at an all night diner in Arlington Virginia It was about 0300 in the morning when we finished up our meal and headed back to my in laws house to sleep I caught an 1800 flight the next day which brought me to Salt Lake City at approximately 2300 that night The second leg of my flight from Phoenix Arizona was very comfortable and relaxing Wearing my DCUs one of the flight attendant s decided to move me to First Class Not only did this provide me with more comfort but it also provided me an opportunity to sit next to her husband who had joined her on the flight I had a really nice conversation with the flight attendant s husband throughout the flight Then as we landed in Salt Lake City the flight attendant announced to all of the people on the flight that I had just returned home from the war in Afghanistan Everyone began to clap and I received the honor of being the first person off of the airplane I then began my mad dash towards my family People noticed that I was in uniform holding two little bears one for each of my girls and I was practically running so everyone pretty much got out of my way Within minutes I saw Melanie holding a Welcome Home poster and my girls waving small American flags It was a very impressive and precious sight I scooped up both of my daughters in my hands and I embraced the whole family The nice thing was that Suzanna didn t cry everyone seemed to at least have some idea who I was this time In fact Annabelle wouldn t hardly let me go out of her sight for the next few days I learned several days later that Annabelle had a lot of trouble sleeping while I was gone which was attributed to me not being there and her not knowing when I would come home This latter fact is what changed my mindset from wanting to go back to the combat zone any time soon While I was gone I made the most of my deployment and I even learned to enjoy many aspects of the adventure However when you see the effects of being gone on the homefront nothing else seems to matter but family Would I go again Absolutely But I would certainly wait for my number to come up or for someone to come asking for my assistance a little more passionately When I arrived at my actual home in the Ogden Utah

area I quickly noticed several decorations on the property I hadn't expected such extravagance but I was certainly impressed by what I saw. As I walked around the house and the yard in my civilian clothes the next day surrounded by my family I finally felt like I was home.

The Infidel Bob Shepherd, 2010-08-05. When Islamic militants infiltrate an elite British counter-narcotics programme, disaster is averted thanks to SAS veterans John Patterson and Dusty Miller. But when fallout from the affair threatens to topple the West's fragile Afghan alliance and expose failings inside the UK's new crime-fighting agency, John and Dusty suddenly find themselves on the wrong side of the law. Alone and on the run, one place on earth holds the key to their innocence: Nuristan, a remote Afghan province and notorious terrorist haven. But their journey to freedom will thrust them deeper into the Afghan conflict than they ever imagined. Battling hostile terrain and Islamic fighters, John and Dusty emerge the unlikely champions of an ancient community torn apart by al-Qaeda and western forces. From Bob Shepherd, ex-SAS soldier and bestselling author of *The Circuit*, comes an adventure inspired by Rudyard Kipling's *The Man Who Would Be King*. An action-packed tale of honour, betrayal and tribalism, *The Infidel* is thrilling, poignant and deeply relevant to one of the bloodiest conflicts of our time.
