Seatrade ,1983 Military Review ,2019 **Leapfrogging Development?** J. P. Singh,1999-07-27 Telecommunications restructurings are now seen as important barometers in the shift among developing countries toward market based economies They are often posited as helping developing countries leapfrog or accelerate their pace of development and connect with the world economy This book shows that most states in developing countries are unable to resolve the myriad pressures they face in restructuring important sectors like telecommunications to effect accelerated or leapfrogging development The scope pace and sequencing of restructuring varies according to how different types of states respond to micro sub sectoral pressures or to macro level pressures from coalitions of groups After examining seven generalizable cases Singapore South Korea Mexico Malaysia China Brazil Myanmar the book examines India as an in depth most likely case Leapfrogging Development proposes a unique framework that shows how groups and coalitions articulate development preferences and how different types of states respond to or shape these preferences **U.S. Terminal Procedures** ,2017-12-07 **Military Adaptation in Afghanistan** Theo Farrell,Frans Osinga,James A. Russell,2013-07-17 When NATO took charge of the International Security Assistance Force ISAF for Afghanistan in 2003 ISAF conceptualized its mission largely as a stabilization and reconstruction deployment However as the campaign has evolved and the insurgency has proved to more resistant and capable key operational imperatives have emerged including military support to the civilian development effort closer partnering with Afghan security forces and greater military restraint All participating militaries have adapted to varying extents to these campaign imperatives and pressures This book analyzes these initiatives and their outcomes by focusing on the experiences of three groups of militaries those of Britain Canada Denmark the Netherlands and the US which have faced the most intense operational and strategic pressures Germany who s troops have faced the greatest political and cultural constraints and the Afghan National Army ANA and the Taliban who have been forced to adapt to a very different sets of circumstances **Structure of Strong Shock Waves** Ira Milton Scholnick,1967 *Det. 25* Michael L. Haley MSG (Ret.) USAR,2023-01-18 When Sergeant First Class Haley and 35 other Soldiers in Detachment 25 deployed to Afghanistan on a mission to mentor the training and development of the Afghanistan National Army they did not know how chewed up the situation was Selected from volunteers within the Ninety Fifth Division the Army Reserve Drill Sergeants of Det 25 discovered that training the ANA was a joke Afghanistan was a toilet that needed to be flushed of its Taliban turds but that was never going to happen What did happen was that the entire world took a crap all over that country and left it more of a mess than it was before Operation Enduring Freedom began Nation building is a failure and the United States must never again attempt it anywhere else in the world Whenever someone tells the truth about military or political incompetence in the United States the government feigns plausible deniability or tries to suppress the truth This story tells the truth about a group of American heroes and legends who did not deserve a loss for their sacrifices Thanks to the worst president in

American history the loss of American lives has become a joke Americans can only laugh about OEF because there is nothing else anyone can do now except to have faith hope and love
