Blurred Boundaries and Deceptive Dichotomies in Pre-Modern Texts and Images Dafna Nissim, Vered Tohar, 2023-12-18 This collection of essays focuses on the way blurred boundaries are represented in pre modern texts and visual art and how they were received and perceived by their audiences readers listeners and viewers According to the current understanding that opposing cognitive categories that are so common in modern thinking do not apply to pre modern mentalities we argue that individuals in medieval and pre modern societies did not necessarily consider sacred and secular male and female real and fictional and opposing emotions as absolute dichotomies The contributors to the present collection examine a wide range of cultural artifacts literary texts wall paintings sculptures jewelry manuscript illustrations and various objects as to what they reflect regarding the dominant perceptual system the network of beliefs worldviews presumptions values and norms of viewing reading hearing different from modern epistemology strongly predicated on the binary nature of things and people The essays suggest that analyzing pre modern cultural works of art or literature in light of reception theory can lead to a better understanding of how those cultural products influenced individuals and impacted their thoughts and actions

A Heritage of Holy Wood: The Legend of the True Cross in Text and Image Barbara Baert,2004-07-01 In the fourth century the idea arose that the Cross on which Christ was crucified had been found by Helena mother of Emperor Constantine Thus began a legend that would grow and flourish throughout the Middle Ages and cause the diffusion of countless splinters of holy wood And where there is wood there was once a tree Could it be that the Cross was made from that most noble species the Tree of Life So gathering characters along the way the legend evolved into a tale that stretches from the Creation to the End of Time A Heritage of Holy Wood is the first reconstruction of the iconographic and literary tradition of the Legend of the True Cross Its broad scope encompasses relic cults pilgrimages travellers tales and the Tree of Life and involves Church Fathers crusader kings Teutonic Knights and mendicant orders all of which influenced the legend s depiction from its earliest representation in manuscripts reliquaries and altarpieces to the great monumental cycles of the high Middle Ages If the holy wood was the medium of medieval memory A Heritage of Holy Wood reveals the growth rings of fifteen centuries of imagery **Schubert's Reputation from His Time to Ours** Geoffrey Block,2024-12-30 The composer Franz Schubert 1797 1828 was not bereft of early advocates from Schumann Liszt and Mahler to Sir George Grove Brahms famously heralded Schubert as the true successor to Beethoven Nevertheless it was not until the end of the twentieth century that Schubert s major instrumental works finally and fully emerged from Beethoven s shadow Critics and scholars began to reinterpret Schubert s departures from Beethoven s formal and stylistic characteristics and to see these departures not as flaws but as strengths and hallmarks of a new paradigm Schubert s alternate constructions of masculine subjectivities first
