## WARNING

**CONSTRUCTION EQUIPMENT CAN BE DANGEROUS IF IMPROPERLY OPERATED OR MAINTAINED. THIS CRANE SHOULD BE OPERATED AND MAINTAINED ONLY BY TRAINED AND EXPERIENCED PEOPLE WHO HAVE READ, UNDERSTOOD, AND COMPLY WITH THE OPERATOR'S & MAINTENANCE MANUAL.**

The productive life of construction equipment depends largely on the care and consideration given to it. This especially holds true for hydraulic cranes. This Operator's & Maintenance Manual was compiled to explain the procedures and adjustments necessary for proper operation of the crane.

A study of this Operator's Manual will acquaint the operator and service personnel with the construction of this crane. It will enable them to identify and remedy most problems that may occur. Any questions pertaining to the care and upkeep of this crane which are not covered in the Operator's Manual should be directed to your Link-Belt Distributor.

The Operator's Manual is stored in the pocket on the rear of the operator's seat. The Operator's Manual should remain in the cab and accessible at all times. If the Operator's Manual becomes lost, damaged, or unavailable, it must be replaced before operating the crane.

In addition to this Operator's & Maintenance Manual, a Parts Manual, Crane Rating Manual, and Safety Manual are supplied with the crane. Read and understand all safety guidelines before operating the crane. Additional copies of all manuals are available through your Link-Belt Distributor.

## Crane Serial Number

The crane serial number is on the Crane Rating Manual in the lower right interior of the operator's cab. The crane serial number should always be furnished when ordering parts for the crane, or when corresponding with the Link-Belt Distributor or the Factory regarding the crane. The serial number is the only method of assuring that the correct parts will be furnished.

In the event the serial number cannot be found on the Crane Rating Manual, a number is stamped on top of the outrigger box on the right side of the crane and on the rear position using link attachment. This number can then be used to help to identify the crane.
