Lsu Sorority Rush Dress Guide:

Tulane Clarence L. Mohr, Joseph E. Gordon, 2001-03-01 Tulane is the story of a southern school striving for national recognition in the post World War II era of American research universities Clarence L Mohr and Joseph E Gordon present a candid in depth treatment of the 150 year old New Orleans institution during this transformative period when it grappled with such pervasive issues as federal and private funding academic freedom an enrollment surge set in motion by the GI Bill and sustained by the postwar baby boom the cold war desegregation the antiwar civil rights and student power movements expanding intercollegiate athletics censorship the clash between liberal and utilitarian conceptions of higher learning revision of curricular content and the role of universities as platforms for social criticism all of which together profoundly altered the mission of American higher learning In addition to these external forces the authors examine the many individuals administrators professors and students whose responses in both calm and crises shaped the evolution of Tulane's unique academic physical and demographic design Like its regional peers in the 1950s and 1960s Tulane faced the challenge of transcending its past without repudiating traditions of lasting value From a loose confederation of locally oriented undergraduate and professional schools it developed into a nationally focused research university serving a diverse student body selected through rigorous admissions standards Its journey over the past half century should remind those who support study or teach in American universities that their own institutions during that period have in a very real sense made history as well
