Using Art to Teach Writing Traits Jennifer Klein, Elizabeth Stuart Whitehead, 2018-11-23 Our purpose for writing this book is so that children can become better communicators by expressing their thoughts feelings and ideas The ability to communicate is a universal goal in society If children can better communicate in their speaking and writing clearer more precise messages will be received and communication around the world will be strengthened The writing traits are a way for teachers and children to discuss and analyze written pieces for strengths and needs in order communicate their thoughts and expresses their ideas through writing in a way that touches their audience Adding art into this established process will allow children to learn about the writing traits in a text free environment before applying the traits to their own writing Children will learn how artists communicate their thoughts feelings and ideas and how the traits that writers use are similar to the traits that artists use in order to better communicate express themselves and process the world around them In addition we will discuss the revision and editing process Art is an exciting and engaging subject for students This book will allow children to transfer their knowledge of how artists use the traits to how writers use the traits and then to how they can utilize the traits in their own writing to better communicate with their audience and process the world around them *Infusing Vocabulary Into the Reading-Writing Workshop* Amy Benjamin, 2017-01-12 Learn how to make vocabulary instruction more effective by making better use of mini lessons and word study time to achieve durable learning about words and how they work In this essential new book literacy expert Amy Benjamin presents her 4E model Exposure Exploration Engagement Energy for teaching vocabulary so that students gain deep understanding improving their overall language and literacy skills Benjamin guides you through bringing these 4Es to life in your K 8 reading writing workshop Exposure Enrich your teacher talk with sophisticated words and phrases to facilitate natural language acquisition and application of new words Exploration Promote consistent vocabulary growth with a multifaceted instructional approach that incorporates etymology word associations word families spelling and morphology Engagement Build students confidence by encouraging meaningful use of new words both in and out of the classroom Energy Enliven your workshop and increase participation with a variety of word games puzzles projects and cooperative learning activities Each chapter provides practical examples and scenarios to help you apply the model to your own classroom The appendices include a variety of strategies for organizing reading writing workshops a thorough introduction to academic word lists and their role in vocabulary instruction and an analysis of forty Latin and Greek word roots for mini lessons **A Field Guide to the Classroom Library** Lucy Calkins, 2002 Provides comprehensive and accessible leveled lists and guides for 1 200 children s trade books for kindergarten through 6th grade to help teachers build classroom libraries **Staff Development Guide** , 1997 *Balanced Literacy Instruction* Kathryn Hu-Pei Au, Jacquelin H.
