Lutz And Collins Reading National Geographic:

Presenting America's World Tamar Y. Rothenberg, 2016-12-05 National Geographic magazine is probably the most visible and popular expression of geography in the USA. Presenting America's World presents a critical analysis of the world portrayed by National Geographic from its formative years in the nineteenth century through to 1945. It situates the National Geographic Society's development within the context of a new American overseas expansionism, interrogates the magazine as America's ubiquitous source of wholesome exotica and erotica, examines the ways in which it framed the world for its millions of readers, and questions its participation in the cultural work of US global hegemony. The book argues that National Geographic successfully employed strategies of innocence, a contradictory stance of representation which simultaneously asserts innocence either the innocence of just watching or the innocence of altruistic behaviour while naturalizing Western hegemony. Presenting America's World not only considers the world that National Geographic presented to its readers but also examines the magazine's own institutional world of writers, photographers and editors. Particular attention is paid to Gilbert H. Grosvenor, the magazine's editor for over 50 years; Maynard Owen Williams, a writer and photographer who worked on nearly 100 articles from 1919 to 1960; and Harriet Chalmers Adams, a freelancer, explorer and Pan American activist who contributed 21 articles.

Reading National Geographic Catherine Lutz, Jane Lou Collins, 1993 Discusses the ways that the magazine and its authors and editors have both passively and actively shaped American opinions of other cultures and caused us to reflect on our own culture

The International Photojournalism Industry Jonathan Ilan, 2018-07-17 How are events turned into news pictures that define them for the audience? How do events become commodified into pictures that both capture them and reiterate the values of the agencies that sell them? This book looks at every stage of the production of news photographs as they move to and from the ground and are sold around the world. Based on extensive fieldwork at a leading international news agency that includes participant observation with photographers in the field at the agency's local and global picture desks in Israel, Singapore and the UK, in depth interviews with picture professionals and observations and in depth interviews at The Guardian's picture desk in London, the findings in this book point to a wide cultural production infrastructure hidden from and yet also nurtured and thus very much determined by the consumer's eye.

Watching Wildlife Cynthia Chris, 2006 Tidligere natur og dyrefilm fokuserede på dyrekernefamilien og den gode forlader. Under indtryk af genrens skift til tv mediet er fokus nu rettet mod parring forskelle mellem hanner og hunner og ofte med en tvivlsom henvisning til samme mænstre hos mennesker

Super, Natural Christians Sallie McFague, A former dean at Vanderbilt University's Divinity School, Sallie McFague calls Christians down to earth. In a readable and available style, alive with concrete imagery and autobiographical material, McFague crafts a Christian spirituality centered on nature as the focus and locus of our encounter with the divine. She helps us see all life as created in the image of God.
