

"Bad Blood"
By Taylor Swift

[Chorus]

'Cause baby, now we've got bad blood
You know it used to be mad love
So take a look what you've done
'Cause baby, now we've got bad blood, hey!
Now we've got problems
And I don't think we can solve 'em
You made a really deep cut
And baby, now we've got bad blood, hey!

[Verse 1]

Did you have to do this?
I was thinking that you could be trusted
Did you have to ruin what was shiny?
Now it's all rusted
Did you have to hit me where I'm weak?
Baby, I couldn't breathe
And rub it in so deep
Salt in the wound like you're laughing right at me

[Pre-Chorus]

Oh, it's so sad to
Think about the good times
You and I

[Chorus]

'Cause baby, now we've got bad blood
You know it used to be mad love
So take a look what you've done
'Cause baby, now we've got bad blood, hey!
Now we've got problems
And I don't think we can solve 'em
You made a really deep cut
And baby, now we've got bad blood, hey!

[Verse 2]

Did you think we'd be fine?
Still got scars in my back from your knives
So don't think it's in the past
These kinds of wounds they last and they last
Now, did you think it all through?
All these things will catch up to you
And time can heal, but this won't
So if you're coming my way
Just don't

It's perfect for all songwriters: those who don't like their own lyrics and find them difficult to write; experienced writers looking for a creative edge; and those offering lyrics to set to music in a partnership. Topics include channeling personal experiences into lyrics; overcoming writer's block; the right lyrics for a bridge; the separation between lyrics and poetry; exploring imagery and metaphor; avoiding clichés; and more. The book also offers tips on the various styles of lyrics: from protests, spirituals, and confessionals to narratives and comic songs.

Staging the Lyric Sarah Berry, 2024-11-14 Verse drama is not a dead form but very much alive on the contemporary stage. Drawing on plays from throughout the English-speaking world, including the United States, United Kingdom, Ireland, and the Caribbean, *Staging the Lyric* seeks to explain the 21st-century resurgence of Anglophone verse drama, tracing it back to an experimental impulse that is present in the modernist verse drama of a century ago. Covering major writers including Derek Walcott, Seamus Heaney, Sylvia Plath, Samuel Beckett, Dorothy Sayers, Djuna Barnes, and Ntozake Shange, it also encompasses lesser-known and more recent poets and playwrights. This modern verse drama differs from its ancient and Elizabethan antecedents as it is understood not as a genre in its own right but as a hybrid of the lyric and the dramatic. Both modernist and contemporary writers take advantage of this hybridity as fertile ground for experimentation. While they differ in their

ideology and form this book contends that they are united by exploring the relationship between lyric and dramatic elements on stage and what these two different modes afford To demonstrate this continuity it traces a genealogy from contemporary plays by Joanna Laurens Joyelle McSweeney and David Grieg back to W B Yeats Gertrude Stein T S Eliot and W H Auden to reveal that the tensions that animate verse drama have stayed the same even as the strategies for staging them have evolved The book is divided into three sections Voice Words and Time each treating one feature that has been used to define the lyric Within these sections the chapters compare contemporary plays with modernist ones that experiment with the same point of tension between the lyric and the dramatic

Catullus in Twentieth-Century Music Stephanie Oade,2024-08-19 One of the most famous voices to have survived from the Roman world Catullus s poetry is still amongst the most popular and widely read But what is it that makes this 2 000 year old voice so relevant so personal and so endlessly fascinating Reinigorating discussions around the nature of Catullus s lyricism Catullus in Twentieth Century Music takes a completely new approach to Catullus and ideas of lyric It centres around four musical works from the twentieth century each one capturing the essence of Catullus in musical retellings and showcasing a very personal response to the original text Considering how and why these musical composers used Catullus s poetry as their stimulus allows us to uncover new ideas about Catullus s poetry By considering the very process of reception Stephanie Oade takes a broader view of lyric identifying traits and characteristics that are common to both music and poetry thus transcending the boundaries of individual art forms in order to consider the genre in larger interdisciplinary terms It offers insights into compositional processes and challenges audiences to think about ways of engaging with music and poetry More than anything it shows how ancient voices continue to resound in modernity and offer everlasting expression for our own experiences and emotions

Song Translation: Lyrics in Contexts Johan Franzon,Annjo K. Greenall,Sigmund Kvam,Anastasia Parianou,2021-02-01 Song Translation Lyrics in

Contexts grew out of a project dedicated to the translation of song lyrics. The book aligns itself with the tradition of descriptive translation studies. Its authors, scholars from Finland, Great Britain, Greece, Italy, Norway, and Sweden, all deal with the translation of song lyrics in a great variety of different contexts, including music and performance settings, intercultural perspectives, and historical backgrounds. On the one hand, the analyses demonstrate the breadth and diversity of the concept of translation itself; on the other, they show how different contexts set up conditions that shape translational practices and products in different ways. The book is intended for translation studies scholars as well as for musicologists, students of language and/or music, and practicing translators in short, anybody interested in this creative and fascinating field of translational practice.

The Oxford Handbook of Musical Repatriation Frank Gunderson, Robert C. Lancefield, Bret Woods, 2019-09-09

The Oxford Handbook of Musical Repatriation is a significant edited volume that critically explores issues surrounding musical repatriation, chiefly of recordings from audiovisual archives. The Handbook provides a dynamic and richly layered collection of stories and critical questions for anyone engaged or interested in repatriation or archival work. Repatriation often is overtly guided by an ethical mandate to return something to where it belongs by such means as working to provide reconnection and Indigenous control and access to cultural materials. Essential as these mandates can be, this remarkable volume reveals dimensions to repatriation beyond those which can be understood as simple acts of giving back or returning an archive to its homeland. Musical repatriation can entail subjective negotiations involving living subjects, intangible elements of cultural heritage, and complex histories situated in intersecting webs of power relations and manifold other contexts. The forty-eight expert authors of this book's thirty-eight chapters engage with multifaceted aspects of musical repatriation, situating it as a concept encompassing widely ranging modes of cultural work that can be both profoundly interdisciplinary and embedded at the core of ethnographic and historical scholarship. These authors explore a rich variety of these processes, many streams, making the volume a compelling space for critical analysis of musical repatriation and its wider significance. The Handbook presents these chapters in a way that offers numerous emergent perspectives depending on one's chosen trajectory through the volume. From retracing the paths of archived collections to exploring memory, performance, research goals, institutional power, curation, preservation, pedagogy, and method, media and transmission, digital rights, and access policy and privilege, intellectual property ideology, and the evolving institutional norms that have marked the preservation and ownership of musical archives, The Oxford Handbook of Musical Repatriation addresses these key topics and more in a deep, richly detailed, and diverse exploration.
