

BEGINNER ESL LESSON PLAN

PHONICS: THE /ô/ SOUND

WARM UP

Find and print the following pictures: lawn, straw, thought, crawl, and wrong. Put the pictures on the board and tell your students to guess what all the pictures have in common.

"I DO"

Introduce the /ô/ sound to your students. Over-exaggerate the sound by opening your mouth wide where Ss can see how to position their mouths. It might help to tell them it's like the start of a yawn. You can show this by stretching and yawning.

"WE DO"

Write the following list of words on the board (go green!) or distribute paper lists and have Ss try to pronounce them. Let them work in groups first and then go through it as a class. Use fewer words if your class is absolute beginners.

lawn, thought, fought, raw, straw, lawn, bought, crawl, brought, awful, caught, wrong, already, taught, often, fault, autumn, daughter, automobile, all right

"YOU ALL DO"

Have students practice the /ô/ sound by playing a game of bingo, matching pictures to sounds, spelling on the board (race against teams), or anything else you can think of!

"YOU DO"

To test your students, call on them individually and point to words quickly and at random for them to pronounce. The point is fluency so you want speed and accuracy. If they get it right you can go "Ding! Ding!" If they get it wrong, make a buzzer sound and let them try again.

Benjamin Piper,Yasmin Sitabkhan,Jessica Mejia,Kellie Betts,2018-05-10 This report presents the results of RTI International Education s study on teachers guides across 13 countries and 19 projects Using quantitative and qualitative methods we examine how teachers guides across the projects differ and find substantial variation in the design and structure of the documents We develop a scripting index so that the scripting levels of the guides can be compared across projects The impact results of the programs that use teachers guides show significant impacts on learning outcomes associated with approximately an additional half year of learning showing that structured teachers guides contribute to improved learning outcomes During observations we find that teachers make a variety of changes in their classroom instruction from how the guides are written showing that the utilization of structured teachers guides do not create robotic teachers unable to use their own professional skills to teach children Unfortunately many changes that teachers make reduce the amount of group work and interactivity that was described in the guides suggesting that programs should encourage teachers to more heavily utilize the instructional routines designed in the guide The report includes a set of research based guidelines that material developers can use to develop teachers guides that will support effective instructional practices and help improve learning outcomes The key takeaway from the report is that structured teachers guides improve learning outcomes but that overly scripted teachers guides are somewhat less effective than simplified teachers guides that give specific guidance to the teacher but are not written word for word for each lesson in the guide **Succeeding as an English Teacher** Abigail
