

Memorandum

Dated: 14 January 2023

To: Sales & Marketing Group

From: Praveenkumar Revankar, Product Engineering

Subject: Delay in release timelines of Feature A and Feature B.

Purpose:

The purpose of this document is to notify the cross-functional group about sudden changes in release timelines of Feature A and Feature B and to reinform the group to reprioritize certain tasks for Sales and Marketing for the release.

Background/Context:

We have been working together on our key USP features 'Feature A' and 'Feature B' for targeting their release this quarter. Due to unforeseen circumstances, there is a change in the release timelines and the new timeline will be shared shortly in Scrum of Scrum meeting where a representative from Sales has been invited.

Action:

Even though it looks like a major setback and current activities w.r.t. The release can be paused, there are certain actions that have to be performed in this quarter. The same has been conveyed in Jira, marking the work items with labels "Q1_Paused" and "Q1_Must." Please reprioritize your internal activities based on the labels in Jira and ensure a final plan reflected in Jira on or before 30 January 2023.

Conclusion:

We might be delayed with the release but we are not affecting the business. The necessary strategy is defined and put in place to ensure customers can solve their problems using our support until Feature A and Feature B release.

Thanks,
Praveenkumar Revankar

Prolog by Example Helder Coelho,Jose C. Cotta,2012-12-06 Prolog has a declarative style A predicate definition includes both the input and output parameters and it allows a programmer to define a desired result without being concerned about the detailed instructions of how it is to be computed Such a declarative language offers a solution to the software crisis because it is shorter and more concise more powerful and understandable than present day languages Logic highlights novel aspects of programming namely using the same program to compute a relation and its inverse and supporting deductive retrieval of information This is a book about using Prolog Its real point is the examples introduced from Chapter 3 onwards and so a Prolog programmer does not need to read Chapters 1 and 2 which are oriented more to teachers and to students respectively The book is recommended for introductory and advanced university courses where students may need to remember the basics about logic programming and Prolog before starting doing Chapters 1 and 2 were also kept for the sake of unity of the whole material In Chapter 1 a teaching strategy is explained based on the key concepts of Prolog which are novel aspects of programming Prolog is enhanced as a computer programming language used for solving problems that involve objects and the relationships between objects This chapter provides a pedagogical tour of prescriptions for the organization of Prolog programs by pointing out the main drawbacks novices may encounter

Religious Interactions in Europe and the Mediterranean World Katsumi Fukasawa,Benjamin J. Kaplan,Pierre-Yves Beaurepaire,2017-07-14 The religious histories of Christian and Muslim countries in Europe and Western Asia are often treated in isolation from one another This can lead to a limited and simplistic understanding of the international and

interreligious interactions currently taking place This edited collection brings these national and religious narratives into conversation with each other helping readers to formulate a more sophisticated comprehension of the social and cultural factors involved in the tolerance and intolerance that has taken place in these areas and continues today Part One of this volume examines the history of relations between people of different Christian confessions in western and central Europe Part Two then looks at the relations between Western and Eastern Orthodox Christianity Islam and Judaism in the vast area that extends around the Mediterranean from the Iberian Peninsula to western Asia Each Part ends with a Conclusion that considers the wider implications of the preceding essays and points the way toward future research Bringing together scholars from Asia the Middle East Europe and America this volume embodies an international collaboration of unusual range Its comparative approach will be of interest to scholars of Religion and History particularly those with an emphasis on interreligious relations and religious tolerance
