PASSAGE I

A hunter had a magic cloak. This cloak could take its wearer anywhere he wished to go. With its help, the hunter went with a girl to a mountain where there were many rich jewels. He did not know that the girl had made a plan with a witch to deceive him.

The hunter and the girl collected the best jewels on the mountain but the magic of the witch began to make the hunter feel very tired, and so he sat down and immediately fell asleep. As soon as he was fast asleep, the girl unfastened the cloak from his shoulders and put it over her own. Then, picking up the jewels, she wished herself at home. Immediately she disappeared.

Introduction to Ghana Gilad James, PhD, Ghana is a country in West Africa bordered by Cote d'Ivoire to the west Burkina Faso to the north Togo to the east and the Gulf of Guinea to the south The country was formerly known as the Gold Coast due to its abundant gold resources and it gained independence from British colonization in 1957 The population of Ghana is around 31 million and the official language is English although many

Ghanaians speak local dialects as well. The country is known for its diverse culture, colorful festivals, and tasty cuisine which includes dishes like jollof rice, banku, and fufu. Ghana is also home to several natural attractions including national parks, waterfalls, and beaches, making it a popular destination for tourists. Despite being a developing country, Ghana has made significant progress in recent years with a growing economy and improving infrastructure. The country's GDP has been steadily increasing, fueled by industries like agriculture, mining, and oil production. However, Ghana still faces challenges such as poverty, high unemployment rates, and inadequate healthcare and education systems. Ghana is also working towards addressing issues related to corruption and improving democratic governance through institutional reforms. Overall, Ghana remains a vibrant and fascinating country that is constantly evolving and striving towards progress. *Refocusing Research in Science, Technology, and Mathematics (STM) Education*, Science Teachers Association of Nigeria.
