## English Pp2 June 2015 Memo:

**Awakening to China's Rise** Hugo Meijer, 2022-08-01 *Awakening to China's Rise* provides the most comprehensive analysis to date of how Europe's major powers have responded to the re-emergence of China as a great power in world politics since the end of the Cold War. To do so, it puts forward a unique cross-regional comparison of how the major European powers, France, Germany, and the United Kingdom, have confronted Chinese assertiveness both in the Asia Pacific and in Europe. Firstly, it analyses their response to China's increasingly muscular regional posture in the Asia Pacific through the development of diplomatic and security initiatives with partners in the region. Secondly, it delineates how they have confronted China's inroads into Europe, looking at the measures that they have taken to tackle Chinese investments in and supply of technologies in strategic sectors such as critical national infrastructures, dual-use technologies, and in the digital domain, including Huawei's 5G networks. A longstanding assumption in the IR literature has been that European foreign policies toward the People's Republic of China have been driven by a naïve and self-interested focus on the economic opportunities presented by such a vast market, overlooking security considerations. This book challenges such common belief through a detailed examination of the policies of France, Germany, and the United Kingdom from 1989 to the present. Its central argument is that whereas this assessment aptly characterized the first two post-Cold War decades, Beijing's growing assertiveness after 2009 caused the three major European powers to awaken to China's rise. In the 2010s, heightened threat perceptions of China, coupled with increasingly competitive bilateral economic relations with the PRC, have gradually and cumulatively caused the hardening of their policy goals, which in turn translated into the formulation of new policy instruments to confront such a challenge. To substantiate this argument, the book relies on a large body of previously undisclosed primary sources, including 223 interviews conducted with senior officials in Europe, Berlin, Brussels, London, Paris, in the United States, Washington DC, and in Asia, Beijing, Shanghai, New Delhi, Seoul, declassified archival documents from France, the UK, and Germany, leaked US diplomatic cables, and new data on European naval deployments.

*The Law of Insurance Warranties* Alastair Owen, 2021-06-21 The book provides a detailed review of efforts to reform the law on insurance warranties in Australia, New Zealand, and the UK, arguing that none of these have been successful. The text proposes a radical new approach to reform of this area of the law, demonstrating through detailed stress testing of these proposals that they would deliver more consistent and equitable outcomes than those achieved to date. Reform of the historically inequitable law of insurance warranties in commercial insurance has been introduced in Australia, New Zealand, and most recently the UK. This book demonstrates that all these reforms have flaws and that none of them can be relied upon to deliver consistently equitable and predictable outcomes. In particular, the UK's as yet largely untested Insurance Act 2015 is shown to have serious flaws that have not previously been identified. Building on lessons from these three jurisdictions, the book sets out an alternative approach for dealing with breaches of insurance warranties and demonstrates that this would

consistently deliver better outcomes than any of the existing attempts at reforming this area of the law Providing an unprecedented multi jurisdictional review of the law on insurance warranties and in particular the treatment of warranties in the Insurance Act 2015 as well as outlining an innovative and radical alternative approach to reform the book will be of considerable interest and value to practitioners academics and students as well as to other common law jurisdictions contemplating reform of this area of the law      Embedding Human Rights in Prison Anastasia Karamalidou,2017-04-06 This is a comparative study of prisoners human rights in England Wales and the Netherlands Over the years changes in Dutch penal policy have smoothed to some degree the sharp contrasting differences that were once characteristic of the English and the Dutch prison systems In this context the study documents the impact of the two countries penal policies on prisoners human rights and presents prisoners views on the human rights contribution to prison life and prisoner treatment English and Dutch prisoners treat human rights recognition and protection as the yardstick of the prison s legitimacy in contemporary democracies Drawing on their respective experiences Karamalidou highlights valuable lessons on what practices to adopt and what practices to cease with a view to embedding human rights in prison A compassionate and thought provoking study this book will be of interest to undergraduate and postgraduate students of penology and human rights      *The Welsh Criminal Justice System* Robert Jones,Richard Wyn Jones,2022-10-15 This study represents the first systematic attempt to explore the functioning of the policing and criminal justice system in post devolution Wales Its particular relevance is underscored by the revelation that Wales has the highest imprisonment rate in western Europe Drawing on official data as well as extensive interviews with senior figures this book represents the first systematic exploration of the operation of the justice system in Wales across the jagged edge of devolved and non devolved functions There remains little understanding of how the justice system operates in the anomalous circumstances of post devolution Wales This book aims to fill this gap in understanding and concludes with an assessment of the proposals of the Commission on Justice in Wales for reform
