SPM English Essay writing SPM Educational Issues in Multiethnic Malaysia Tan Yao Sua, R. Santhiram, Education in multiethnic societies is a subject of considerable debates in almost all parts of the world These debates have invoked strongly felt positions between competing ethnic groups over a host of issues that have a profound impact on the nation building process Apart from deep seated issues arising from contrasting internal demands over educational rights and equality emerging issues arising from external influences such as the global spread of English as a result of globalisation have also impacted the nation building process of multiethnic societies It is against this context that educational issues in multiethnic societies merit our attention In the case of Malaysia discourses over these issues are particularly intense and hotly contested by the different ethnic groups This is primarily because of the extreme difficulties in mediating these complicated issues which are impinged by competing socio cultural economic and political interests This book explores the contested terrains of education in multiethnic Malaysia It comprises seven chapters that cover three crucial areas of educational provisions and delivery namely education of ethnic minorities education and national integration and educational language policy These three crucial areas are often the prime concerns of policy makers in multiethnic societies who have to tread a thin line in resolving these issues which are underpinned by intense coterminous interests and inter ethnic competition and having the potential to generate conflicts contestation and power struggle As far as the Malaysian policy makers are concerned their efforts in resolving these issues have not been overly successful It is most unfortunate that their policy decisions are at times influenced by competing political and ethnic interests rather than guided by sound theoretical underpinnings that could put the educational development of the country on a stronger platform and a clearer trajectory **Finding Malaysia** Zairil Khir Johari, Some of the most engaging contemporary writing has seen the transformation of the political column into a literary art form an important way of taking in the world and thinking deeply about it In his first collection of essays Zairil Khir Johari offers quick witted and focused reflections on some of the most pressing and contentious issues of the day At the heart of the matter is the bane of Malaysian politics the ethnic question from which he explores a range of high profile issues identity secularism federalism the economy good governance and education After sixty years of nationhood Zairil finds much that is wrong with Malaysia Its eccentricities are by no means benign Yet these essays also offer answers to his own assertion that we need to move beyond this At once both philosophical and practical *Finding Malaysia* lays down a marker for any serious debate over the future trajectory of the country EASYUNI Ultimate University Guide 2013 easyuni Sdn Bhd, 2013-11-11 Taking a decision about your future is not very simple it requires intensive research and some strong decision making skills Am I choosing the right course will I get a job after I graduate should I do what I love doing will I be able to manage my

budgets These questions are always relevant to students who are planning to pursue their higher education and easyuni s guidebook is an attempt to answer a few of these questions This guidebook is another step forward to improve the entire experience of university selection and application The guidebook is an attempt to answer questions of millions of students who are eligible for enrollment in higher education institutes in 2013 2014 The guidebook consists of 80 pages of educational content including articles on studying abroad choosing and applying for universities what to study and scholarships loans among others The articles also focus heavily on the seven most popular subjects namely Engineering Medicine Information Technology Science Arts and Creative Design and Business and Accounting
