English Suggestion For Xi 2015

Dr. S. K. Singh, Sanjay Gupta

English Suggestion For Xi 2015:

US-China Rivalry and Taiwan's Mainland Policy Dean P. Chen, 2017-03-21 This book examines changes in Taiwan's policies toward Mainland China under former Republic of China ROC President Ma Ying jeou 2008-16 and considers their implications for US policy toward the Taiwan Strait. In recent years the People's Republic of China PRC's increasingly assertive foreign policy behaviors have heightened tensions with its regional neighbors as well as the United States. However, under the Kuomintang KMT administration of Ma Ying jeou, Taiwan discounted Beijing's coercion and pursued rapprochement on the basis of the 1992 consensus, which was a tacit agreement reached between the KMT and Chinese Communist Party in 1992 that both Taiwan and the mainland belong to one China, though that China is subjected to either side's different interpretations. The author of this volume analyzes why Taipei underreacted towards the security challenges posed by the PRC and chartered policies that sometimes went against the interests of Washington and its allies in the Asia Pacific. The KMT was pushing for nation building initiatives to rejuvenate the ROC's one China ruling legitimacy and to supplant pro independence forces within Taiwan. The island's deeply fragmented domestic politics and partisanship have led policy elites to choose suboptimal strategy and thereby weakening its security position. The implications from this study are equally applicable to Taiwan's newly elected Democratic Progressive Party government that has taken office in 2016.

China English in World Englishes Deyuan He, 2020-09-12 This book fills the gap in World Englishes studies in terms of the pedagogic implication of China English and its use in the Chinese workplace. Using three triangulated methods, namely questionnaire survey, matched guise technique and focused interview, the book adopts an innovative research methodology that combines quantitative and qualitative data from 3,493 participants. Overall, the participants still believe that the standardized Englishes are desirable models of English in China and that China English should be well codified and promoted before being adopted as the pedagogic model. In addition, the book proposes that the curriculum design of university English should include an introduction to the well-defined characteristics of China English and world Englishes. Last but not least, the book reveals that English is being used more widely and frequently in the professional world than before and has become
