Summary of Regina Calcaterra's Etched in Sand Everest Media, 2022-06-30T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The area where we lived was between the glitzy Hamptons estates and New York City's gritty disco party culture We rarely traveled the main roads like the Southern State or Sunrise Highway 2 I was always the one who opened the car doors for my mother since the interior car door handle was missing I was always the one who stepped out and

pulled the exterior driver's side door handle for my mother especially when she was too drunk to get the door open on her own. I was in charge of moving Cookie into her new house and I was anxious to get her out of the car so I could get the trunk open and remove the beer bottles I had to move with speed to convince Cookie that we were eager to get rid of her. The trunk of the car is stuffed with green garbage bags that I and my family packed there are bags filled with each of our clothes a near empty bag with our collective toiletries a bag stuffed with old towels and a bag packed with all the groceries we cleaned out of our last place.

The Great Sand Sea in Egypt H. Besler, 2011-08-30 The Great Sand Sea in Egypt presents the history of one of the large sand seas in the Sahara, beginning with the sand supply by fluvial transport from partly distant areas and also by local sandstone weathering. It also details sand as a carrier of information and shows the possibilities of sedimentary analysis in dealing with such a topic. Simple measurements may supply important information, e.g., salinity measurements. Well known methods can be developed further to answer special questions. A wealth of information can be drawn from especially adapted sedimentological investigations. In the end, bits of information from different analytical sources can be put together to reveal the history of a large sand sea. Analyzes different geological sources to decipher the history of the Great Sand Sea. Presents the possibilities of sedimentary analysis to interpret the history of an area. Develops well known methods to further answer special questions.
