The AI Wave in Defence Innovation Michael Raska,Richard A. Bitzinger,2023-04-21 An international and interdisciplinary perspective on the adoption and governance of artificial intelligence AI and machine learning ML in defence and military innovation by major and middle powers Advancements in AI and ML pose pressing questions related to evolving conceptions of military power compliance with international humanitarian law peace promotion strategic stability arms control future operational environments and technology races To navigate the breadth of this AI and international security agenda the contributors to this book include experts on AI technology governance and defence innovation to assess military AI strategic perspectives from major and middle AI powers alike These include views of how the United States China Japan South Korea the European Union and Russia see AI ML as a technology with the potential to reshape military affairs and power structures in the broader international system This diverse set of views aims to help elucidate key similarities and

differences between AI powers in the evolving strategic context A valuable read for scholars of security studies public policy and STS studies with an interest in the impacts of AI and ML technologies *Online Instruments, Data Collection, and Electronic Measurements: Organizational Advancements* Bocarnea, Mihai C., Reynolds, Rodney A., Baker, Jason D., 2012-10-31 This book aims to assist researchers in both understanding and utilizing online data collection by providing methodological knowledge related to online research and by presenting information about the empirical quality the availability and the location of specific online instruments Provided by publisher *Constitutional Challenges in the Algorithmic Society* Hans-W. Micklitz, Oreste Pollicino, Amnon Reichman, Andrea Simoncini, Giovanni Sartor, Giovanni De Gregorio, 2021-12-02 New technologies have always challenged the social economic legal and ideological status quo Constitutional law is no less impacted by such technologically driven transformations as the state must formulate a legal response to new technologies and their market applications as well as the state's own use of new technology In particular the development of data collection data mining and algorithmic analysis by public and private actors present unique challenges to public law at the doctrinal as well as the theoretical level This collection aimed at legal scholars and practitioners describes the constitutional challenges created by the algorithmic society It offers an important synthesis of the state of play in law and technology studies addressing the challenges for fundamental rights and democracy the role of policy and regulation and the responsibilities of private actors This title is also available as Open Access on Cambridge Core *International Business* V.K.Bhalla, 2013 **International Business** **Real-world data and real-world evidence in regulatory decision making** Council for International Organizations of Medical Sciences, 2024-05-29 In recent years many medicines regulatory agencies have expressed increased willingness to consider real world evidence RWE that derives from the review and or analysis of real world data RWD to support claims of efficacy or effectiveness as well as of safety This increased willingness is changing the regulatory environment in which RWE is generated and used This consensus report aims to describe the potential use of RWE for decision making RWD and data sources key scientific considerations in the generation of RWE and ethical and governance issues in using RWD The intended audience for this report includes medicinal product regulators healthcare payers health care and medicinal products industries researchers bioethicists patients and health care professionals This report was developed to inform discussions about the use of RWD and RWE for regulatory and health care decision making including decisions to make a product available for use authorisation to cover the costs of its use reimbursement and to use a product for a particular patient clinical use This report reflects the opinions of the Council for International Organizations of Medical Sciences CIOMS Working Group XIII on Real world data and real world evidence in regulatory decision making and it was finalised after considering comments received during a public consultation <https://doi.org/10.56759/kfxh6213> *The Humanized Internet* Akram Alfawakheeri, Monique J. Morrow, 2025-11-19 Enterprising the Internet has been a process over the past years and while this book does not set judgement it does call for a moment of pause and reflection on the impact of

these technologies to individuals There are constant key themes throughout this book such as the notion of identity and identity sets e sovereignty and privacy but most importantly the function of an Internet that is inclusive and not controlled by a few organizations for their own profitability This is The Humanized Internet These tenets may sound libertarian but in fact we are talking about the core principles that guide the development and perhaps the return of the Internet to the people especially those who are underserved Do no evil should not just be a company motto but the driving principle behind the development of any technologies that do impact us as individual consumers of these technologies and corresponding products Indeed there is a polarity between an Internet that is used for mass empowerment and one that can be used for mass destruction Privacy security and the management of your digital footprint should be done by you With the progression of human and machine interaction due to advances in biotech and the brain computer interface the cloud and virtual mixed reality we need to understand the impacts of these technologies to identity overall Do we require a new definition of identity What is e sovereignty and its application moving forward if we posit that the institutions that exist today may no longer be relevant in their current structure We have all read about the abuses that occur when your data falls into the hands of other entities intentionally or not The Humanized Internet is therefore a call to action your action *Clean Water and Sanitation* Walter Leal Filho, Anabela Marisa Azul, Luciana Brandli, Amanda Lange Salvia, Tony Wall, 2022-07-09 The problems related to the process of industrialisation such as biodiversity depletion climate change and a worsening of health and living conditions especially but not only in developing countries intensify Therefore there is an increasing need to search for integrated solutions to make development more sustainable The United Nations has acknowledged the problem and approved the 2030 Agenda for Sustainable Development On 1st January 2016 the 17 Sustainable Development Goals SDGs of the Agenda officially came into force These goals cover the three dimensions of sustainable development economic growth social inclusion and environmental protection The Encyclopedia of the UN Sustainable Development Goals comprehensively addresses the SDGs in an integrated way It encompasses 17 volumes each devoted to one of the 17 SDGs This volume is dedicated to SDG 6 Ensure availability and sustainable management of water and sanitation for all Water and sanitation are fundamental to human well being Integrated water resources management is essential to ensure availability and sustainable management of water and sanitation for all and to the realization of Sustainable Development Concretely the defined targets are Achieve universal and equitable access to safe and affordable drinking water for all Achieve access to adequate and equitable sanitation and hygiene for all and end open defecation paying special attention to the needs of women and girls and those in vulnerable situations Improve water quality by reducing pollution eliminating dumping and minimizing release of hazardous chemicals and materials halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally Substantially increase water use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity

Implement integrated water resources management at all levels including through transboundary cooperation as appropriate
Protect and restore water related ecosystems including mountains forests wetlands rivers aquifers and lakes Expand
international cooperation and capacity building support to developing countries in water and sanitation related activities and
programmes including water harvesting desalination water efficiency wastewater treatment recycling and reuse technologies
Support and strengthen the participation of local communities in improving Uwater and sanitation management Editorial
