Ethiopian Orthodox Fasting And Holidays Calendar:

Fasting, food, and farming: Evidence from Ethiopian producers on the link of food taboos with dairy development D'Haene, Eline, Vandeveld, Senne, Minten, Bart, 2020-05-01 The impact of food taboos often because of religion is understudied In Ethiopia religious fasting by Orthodox Christians is assumed to be an important impediment for the sustainable development of a competitive dairy sector and desired higher milk consumption especially by children However evidence is limited Relying on unique data we shed light on three major issues First we observe that the average annual number of fasting days that Orthodox adults are effectively adhering to is 140 less than commonly cited averages Using this as an estimate for extrapolation fasting is estimated to reduce annual dairy consumption by approximately 12 percent nationally Second farms adapt to declining milk demand during fasting by increased processing of milk into storable products fasting contributes to larger price swings for these products We further note continued sales of milk by non remote farmers and reduced production by adjusting lactation times for dairy animals for remote farmers Third fasting is mostly associated with increased milk consumption by the children of dairy farmers seemingly because of excess milk availability during fasting periods Our results suggest that fasting habits are not a major explanation for the observed poor performance of Ethiopia s dairy sector nor low milk consumption by children To reduce the impact of fasting on the dairy sector in Ethiopia further investment is called for in improved milk processing storage and infrastructure facilities *Faith and Work* Timothy Ewest, 2018-01-01 Those who adhere to a faith tradition are longing for theories and insights into how they can be true to their faith within the workplace and yet be sensitive and respectful to others of varying faith commitments and beliefs Yet for Christians respect of other faith traditions is especially difficult since Christianity as the dominate religion has become secularized and institutionalized within the workplace as represented in holidays and days off Within the multiple theoretical and research dimensions of management religion and spirituality this book explores theoretical conceptual and strategic theories and research which consider how individuals and organizations integrate their Christian faith in the workplace and how these groups attempt to change society as a whole This historical movement is characterized by a desire for people to live a holistic life which integrates their Christian faith into the workplace also deemed faith at work Historically Christian s faith integration is manifested individually or collectively and is demonstrated in the ways it shapes and informs the values systems ethics character and attitudes towards work This edited volume draws themes out of the three historical epochs of the faith and work movement traced by Miller 2007 in the book *God at work The history and promise of the faith at work movement* These organizing themes while not congruent to the historical epochs do capture the ways in which people of faith have historically attempted to integrate their faith into the workplace These themes include Individual integration organizational strategies for integration and societal integration *Food Cultures of the World Encyclopedia* Ken Albala, 2011-05-25 This comprehensive reference work introduces food culture from more than 150 countries and cultures

around the world including some from remote and unexpected peoples and places From babka to baklava to the groundnut stew of Ghana food culture can tell us where we've been and maybe even where we're going Filled with succinct yet highly informative entries the four volume Food Cultures of the World Encyclopedia covers all of the planet's nation states as well as various tribes and marginalized peoples Thus in addition to coverage on countries as disparate as France Ethiopia and Tibet there are also entries on Roma Gypsies the Maori of New Zealand and the Saami of northern Europe There is even a section on food in outer space detailing how and what astronauts eat and how they prepare for space travel as far as diet and nutrition are concerned Each entry offers information about foodstuffs meals cooking methods recipes eating out holidays and celebrations and health and diet Vignettes help readers better understand other cultures while the inclusion of selected recipes lets them recreate dishes from other lands
