Cohen, 2015-04-06 This book looks at the factors that affect voters' perceptions of the president, presidential approval ratings, attitudes about Congress, and voter trust toward government *RSX, a Guide for Users* John F. Pieper, 1987 Handbook of Statistics in Clinical Oncology John Crowley, Antje Hoering, 2012-03-26 Addressing the many challenges that have arisen since the publication of its predecessor, this third edition covers the newest developments involved in the design and analysis of cancer clinical trials. Accessible to statisticians in clinical trials as well as oncologists interested in clinical trial methodology, the book presents up-to-date statistical approaches to the design and analysis of oncology clinical trials. New topics in this edition include trial designs for targeted agents, Bayesian trial design, and the inclusion of high-dimensional data and imaging techniques. This edition also contains numerous figures and examples to better explain concepts.

Chapelle, Mary K. Enright, Joan M. Jamieson, 2011-04-06 Building a Validity Argument for the Test of English as a Foreign Language™ is distinctive in its attempt to develop a coherent story of the rationale for a test or its revision, explain the research and development process, and provide the results of the validation process. This volume is particularly relevant for professionals and graduate students in educational measurement, applied linguistics, and second language acquisition, as well as anyone interested in assessment issues.

Lyttelton's Britain Iain Pattinson, 2009-11-10 The I'm Sorry I Haven't a Clue team of Barry Cryer, Graeme Garden, and Tim Brooke-Taylor, in the company of their esteemed chairman Humphrey Lyttelton, have been recording their BBC radio show around the UK for longer than any of them can remember that's about a week or twenty minutes in the case of Barry Cryer. At each venue, Humphrey would present a short history of the location, written by Iain Pattinson, to the mutual delight of the audience, the team, and their delightful scorer Samantha, who somehow always found time for a rewarding poke around the area's backstreets. We are privileged to present in gazetteer form the very best of Humphrey's local histories from Radio 4's multi-award-winning antidote to panel games, as accurate as Wikipedia and as comprehensive as Reader's Digest. This unique guide tells you everything you never knew you wouldn't ever need to know about the background and inhabitants of Britain's most prominent towns and cities. The intelligent reader will waste no time in adding it to their collection.

Bristol It was from Bristol in 1497 that John Cabot set off to find a new route to the Spice Islands by sailing north-west. He instead discovered a strange, hostile world which he named Newfoundland until the natives explained that they actually called it Swansea. Nottingham It's well documented in official records that the city's original name was Snottingham, or home of Snotts, but when the Normans came they couldn't pronounce the initial letter S, so decreed the town be called Nottingham, or the home of Notts. It's easy to understand why this change was resisted so fiercely by the people of Scunthorpe. Brighton A settlement

is first recorded in Brighton as long as ago as 3000 BC when Celtic Druids practised their ancient worship of oaks mistletoe and virgins and indeed oaks and mistletoe are still plentiful in Brighton

Contemporary Morphological Theories

Thomas W Stewart,2015-11-16 In spite of the central position that the concept word has among the basic units of language structure there is no consensus as to the definition of this concept or network of related concepts Many perspectives are needed in order to gain even a schematic idea of what words are how words may be composed and what relationships there might be between words Many linguists have put forward frameworks for describing the domain of morphology each framework proceeding from its author s assumptions prioritizing distinct formal and functional dimensions and therefore entering into de facto competition This book addresses the needs of the language scholar student who finds her himself engaged in morphological analysis and theorizing It offers a guide to existing approaches revealing how they can either complement or compete with each other

Obfuscation

Finn Brunton,Helen Nissenbaum,2016-09-02 How we can evade protest and sabotage today s pervasive digital surveillance by deploying more data not less and why we should With Obfuscation Finn Brunton and Helen Nissenbaum mean to start a revolution They are calling us not to the barricades but to our computers offering us ways to fight today s pervasive digital surveillance the collection of our data by governments corporations advertisers and hackers To the toolkit of privacy protecting techniques and projects they propose adding obfuscation the deliberate use of ambiguous confusing or misleading information to interfere with surveillance and data collection projects Brunton and Nissenbaum provide tools and a rationale for evasion noncompliance refusal even sabotage especially for average users those of us not in a position to opt out or exert control over data about ourselves Obfuscation will teach users to push back software developers to keep their user data safe and policy makers to gather data without misusing it Brunton and Nissenbaum present a guide to the forms and formats that obfuscation has taken and explain how to craft its implementation to suit the goal and the adversary They describe a series of historical and contemporary examples including radar chaff deployed by World War II pilots Twitter bots that hobbled the social media strategy of popular protest movements and software that can camouflage users search queries and stymie online advertising They go on to consider obfuscation in more general terms discussing why obfuscation is necessary whether it is justified how it works and how it can be integrated with other privacy practices and technologies

Animal Body Size

Felisa A. Smith,S. Kathleen Lyons,2013-08-09 Galileo wrote that nature cannot produce a horse as large as twenty ordinary horses or a giant ten times taller than an ordinary man unless by miracle or by greatly altering the proportions of his limbs and especially of his bones a statement that wonderfully captures a long standing scientific fascination with body size Why are organisms the size that they are And what determines their optimum size This volume explores animal body size from a macroecological perspective examining species populations and other large groups of animals in order to uncover the patterns and causal mechanisms of body size throughout time and across the globe The chapters represent diverse scientific perspectives and are divided into two sections The first includes

chapters on insects snails birds bats and terrestrial mammals and discusses the body size patterns of these various organisms The second examines some of the factors behind and consequences of body size patterns and includes chapters on community assembly body mass distribution life history and the influence of flight on body size Living Through the End of Nature Paul Wapner,2013-02-08 How environmentalism can reinvent itself in a postnature age a proposal for navigating between naive naturalism and technological arrogance Environmentalists have always worked to protect the wildness of nature but now must find a new direction We have so tamed colonized and contaminated the natural world that safeguarding it from humans is no longer an option Humanity s imprint is now everywhere and all efforts to preserve nature require extensive human intervention At the same time we are repeatedly told that there is no such thing as nature itself only our own conceptions of it One person s endangered species is another s dinner or source of income In Living Through the End of Nature Paul Wapner probes the meaning of environmentalism in a postnature age Wapner argues that we can neither go back to a preindustrial Elysium nor forward to a technological utopia He proposes a third way that takes seriously the breached boundary between humans and nature and charts a co evolutionary path in which environmentalists exploit the tension between naturalism and mastery to build a more sustainable ecologically vibrant and socially just world Beautifully written and thoughtfully argued Living Through the End of Nature provides a powerful vision for environmentalism s future

MJBQC Michael Beloff KC,2022-04-21 Michael Beloff QC is one of the outstanding lawyers of his generation In this insightful and intimate book he brings the reader on a journey through a career of highlights These include his election as head of the Bar Associations administrative law and sports law and his presidency of Trinity College Oxford His judicial roles included appointments at the Courts of Appeal of Jersey and Guernsey He arbitrated at five summer Olympics and chaired the ethics and disciplinary bodies in two major international sports cricket and athletics Such a stellar career can t help but result in a fascinating memoir **Building Leadership in Project and Network Management** Hans-Werner

Franz,Ruggiera Sarcina,2009-08-14 1 1 1 The book The book in your hand is not a scientific book although it is based just as much on science as on my own experience in consultancy and management As its title suggests we want to build a bridge between the leadership that is typical of facilitation techniques and that of project and network management Therefore this book does more than provide you with insights into the mainly methodical Messages we want to transmit It will also make suggestions for how to train facilitators and in the centre of the book you will find a wealth of 40 carefully selected and reality proof Tools many of which have never been previously published in English and in some case have never been published at all With all of these you will find a presentation of our way of using them Our sole objective is to offer our views and experience in improving communication for effective co operation i.e we want people who collaborate in some way to find and decide on the best courses of action then share and implement these decisions better We want to promote learning by doing just as well as doing by learning So this book is for people who in some way are responsible for successful co operation
