

WHY IDLE?? This premium hybrid APU system with 3.3 KWV generator is designed to provide driver comfort while in the sleeper berth, household 120v power and truck battery charging. Years of engineering and experience have gone into the design of this amazing ultra-compact anti-idle solution.

SAVE FUEL & MONEY. The Frigette System offers a logical, more economical approach to engine idling. Most people agree it is a major waste of fuel idling a 450 hp engine just to watch television, cook popcorn or have air conditioning. A typical truck engine burns one gallon per hour, while the Frigette APU System uses only an average of 1/10 gallon per hour. Fuel savings can pay for the system in as little as 12-13 months. The truck value may also be increased at trade-in time.

ANTI-IDLE LAWS. Many truckers are finding they can't live without the Frigette System due to increasing states and cities with anti-idle laws that carry stiff fines.

HEAT & AC IN THE BUNK. Rest in comfort while the Frigette System generates 12,000 BTUs of air conditioning and 10,000 BTUs of heat for a more comfortable "bedroom atmosphere" insuring a good nights sleep.
