Grade 11 L O Exemplar 2014:

CHEMISTRY HANDBOOK & STUDY GUIDE Gr11-12 NE Kevin Smith,2024-02-01 A comprehensive summary of Grade 11 12 Physics Simple logical summaries with example exam questions and work through solutions The book covers the fundamentals of Grade 11 12 Physics and complements the material in any class text Secular canons in Medieval Europe Sigrun Høgetveit Berg,Arnold Otto,2023-04-03 While both regular canons and monasticism with its development into different orders have reached a roughly even level of coverage in research the history of secular canons is a field which has hitherto been far less in focus of historian scholarship This might be due to the fact that they did not form orders or congregations offering a systematic approach to their institutions Hence the pieces of research carried out so far mostly deal with a single cathedral or collegiate chapter and do not expand on the phenomenon in general Likewise the present publication may not give a comprehensive survey but yet takes a comparative approach by regarding the establishment of secular canons in a European longitudinal section from the Polar Circle to Southern Italy In this course both cathedral and collegiate chapters in Scandinavian German Polish and Italian territories and the respective career paths canons took into them will be considered In this course the essays take only some brief recourse to the early middle ages when canons maintained a cloistered vita communis but rather turn their view to those centuries in the high and later middle ages up to reformation times when the chapters reached their full implementation The essays collected in this volume base on a session series held at the International Medieval Congress 2018 in Leeds The contributors are renowned historians in this field Antonio Antonetti Caserta Anna Minara Ciardi Stockholm Emanuele Curzel Trento Sigrun Høgetveit Berg Troms Jochen Johrendt Wuppertal Anna Kowalska Pietrzak d Arnold Otto Nørnberg Kirsi Salonen Turku Jörg Wunschhofer Beckum
