The Crash of 2016 Thom Hartmann,2013-11-12 The United States is more vulnerable today than ever before including during the Great Depression and the Civil War because the pillars of democracy that once supported a booming middle class have been corrupted and without them America teeters on the verge of the next Great Crash The United States is in the midst of an economic implosion that could make the Great Depression look like child s play In THE CRASH OF 2016 Thom Hartmann argues that the facade of our once great United States will soon disintegrate to reveal the rotting core where corporate and billionaire power and greed have replaced democratic infrastructure and governance Our once enlightened political and economic systems have been manipulated to ensure the success of only a fraction of the population at the expense of the rest of us The result is a for the rich by the rich scheme leading to policies that only benefit the highest bidders Hartmann outlines the destructive forces planted by Lewis Powell in 1971 and come to fruition with the Reagan Revolution that have looted our nation over the past decade and how their actions fit into a cycle of American history that lets such forces rise to power every four generations However a backlash is now palpable against the economic royalists a term coined by FDR to describe those hoarding power and wealth including the bankers oligarchs and politicians who have plunged our nation into economic chaos and social instability Although we are in the midst of what could become the most catastrophic economic crash in American History a way forward is emerging just as it did in the previous great crashes of the 1760s 1856 and 1929 The choices we make now will redefine American culture Before us stands a genuine opportunity to embrace the moral motive over the profit motive and to rebuild the American economic model that once yielded great success Thoroughly researched and passionately argued THE CRASH OF 2016 is not just a roadmap to redemption in post Crash America but a critical wake up call challenging us to act Only if the right reforms are enacted and the moral choices are made can we avert disaster and make our nation whole again
