Authentic Holistic Education, Wellbeing, and the Future of Catholic Schools in a Changing World Graeme J. Mellor, 2025-04-28 This book addresses the effects of the changed and changing contexts of Catholic Education in the contemporary world These include the social educational and ecclesial contexts Meaning structures shaped by these past contexts have broken down and the greatest but often unarticulated context is the anthropological context The understanding of humanity and the meaning of human existence today is beset by a marked lack of clarity and consistent direction Catholic Education today exists within contextual fields which are almost unrecognizable from those which existed at the close of the Second World War Each succeeding decade since has wrought stark and dynamic change socially educationally and religiously As such Catholic Education today looks for a direction forward and a sense of purpose into the future This book proposes that the major purpose of contemporary Catholic Education is to provide an educational context that nurtures the true holistic growth of students within its care The focus upon Christian Humanism in contemporary Papal and Magisterial teaching sets the ground for this developing understanding Life Skills Julia

Behaviour Change Tanya Curtis,2018-10 Have you ever wanted or even tried to change your own behaviour or the behaviour of other people No doubt the answer is yes Have your attempts at behaviour change been successful in the short term as well as the long term All too frequently the answer is no Our society is filled with an array of behaviour change strategies that all fall under the category of management relief and solution based strategies and herein lays the error It is these strategies that are failing our society as a whole as at the very best they offer short term behaviour change but rarely LASTING change When observing what is going on on a daily basis you will see behaviour challenges in the areas of education mental health justice disability and that society as a whole is getting worse This does not make sense in a world where there are more resources than ever before unless of course our current resources are not truly supporting The Body Life Skills program embraces that lasting change is our way forward if we are to bring true change to the quality of the life of individuals families workplaces and society as a whole This third book in the Body Life Skills series introduces simple practical and effective ways that will support lasting behaviour change in both a personal and professional capacity This book offers a way forward to bring about Lasting Behaviour Change **Transition-Age Youth Mental Health Care** Vivien Chan,Jennifer

Derenne,2021-03-10 Over the course of the last two decades improved practices in child and adolescent mental healthcare have led to a decreased environment of stigma which also led to an increased identification and treatment of mental health disorders in children and youth Considering that treatment and outcomes are improved with early intervention this is good news However the success gained in the field of child and adolescent psychiatry leads to a new challenge transitioning from adolescent care to adult care It has been known for some time that children adult and geriatric patients all have unique needs where it comes to mental healthcare yet limited work has been done where it comes to the shifting of the lifespan Where it comes to the child adult transition defined as those in their late teens and early mid 20s there can be multiple barriers in seeking mental healthcare that stem from age appropriate developmental approaches as well as include systems

of care needs Apart from increasing childhood intervention the problem is exacerbated by the changing social dynamics more youths are attending college rather than diving straight into the workforce but for various reasons these youths can be more dependent on their parents more than previous generations Technology has improved the daily lives of many but it has also created a new layer of complications in the mental health world The quality and amount of access to care between those with a certain level of privilege and those who do not have this privilege is sharp creating more complicating factors for people in this age range Such societal change has unfolded so rapidly that training programs have not had an opportunity to catch up which has created a crisis for care Efforts to modernize the approach to this unique age group are still young and so no resource exists for any clinicians at any phase in their career This book aims to serve as the first concise guide to fill this gap in the literature The book will be edited by two leading figures in transition age youth both of whom are at institutions that have been at the forefront of this clinical work and research This proposed mid sized guide is therefore intended to be a collaborative effort written primarily by child and adolescent psychiatrists and also with adult psychiatrists The aim is to discuss the developmental presentation of many common mental health diagnoses and topics in chapters with each chapter containing clinically relevant bullet points and or salient features that receiving providers who are generally adult trained should keep in mind when continuing mental health treatment from the child and adolescent system Chapters will cover a wide range of challenges that are unique to transition age youths including their unique developmental needs anxiety mood and personality disorders at the interface of this development trauma and adjustment disorders special populations and a wide range of other topics Each chapter will begin with a clinical pearl about each topic before delving into the specifics

Youth in Cities Marta Tienda, William Julius Wilson, 2002-11-11 Whether in the ghettos of the United States the barrios of Brazil or the ethnic neighborhoods of Germany and Lebanon a growing number of urban youth find themselves marginalized from the social mainstream facing problems of fragile families segregation little or no education and involvement in illegal activities Both rich and poor countries are failing to meet the needs of their urban youth owing to weak institutional frameworks coupled with global economic restructuring that undermines traditional ways of earning a living Youth in Cities compares the circumstances of urban youth cross nationally illustrating the formidable challenges faced by young people trying to define their place in a rapidly changing world Using both comparative evidence and case studies this volume illustrates the common needs of youth throughout the world and makes a case for the role of youth as creative social assets and positive forces for social change Preventing Human Trafficking Robert W. Spire, 2016-03-03 This book explores human trafficking examining the work of grass roots non profit organizations who educate and rehabilitate human trafficking victims and at risk youth Through interviews with staff and children the author compares the work of two NGOs on the ground in Thailand with the work of similar organizations overseas shedding light on the ways in which they combine educational work with shelter settings to prevent human trafficking protect young people and attempt to provide a future

free of exploitation Concentrating less on the details of exploitation itself than the work that is being done to prevent exploitation and protect those who have experienced human trafficking Preventing Human Trafficking explores the many challenges faced by the organizations their staff and the children they serve Drawing on rich qualitative research to address significant gaps in our knowledge of the work of NGOs and propose solutions to the problems of trafficking and how to protect its victims this book will appeal to social scientists and policy makers with interests in criminology exploitation people trafficking non formal education and the work of NGOs

Get Off Your Donkey! Reggie McNeal,2013-02-01 Jesus had little patience with institutional religion that cared for its own needs while neglecting the plight of ordinary people In one of his most famous parables he sets up as a model of Christian behavior a man who unlike some religious folks actually gets down off his donkey and helps a person in dire need With energy and enthusiasm Reggie McNeal calls believers to dismount get down and dirty and live a life that makes a difference He shows readers how to recalibrate their spiritual efforts to move from church centric service to greater community engagement in order to do their essential part in creating a world worth living in McNeal also shows readers that helping others actually helps the one doing the service just as much as the one being served In fact serving is the very best way to learn about yourself and grow spiritually Anyone who longs to have the impact on the world that Jesus did will love this provocative and inspirational message
